The With No Name:

The Victory with No Name Colin Gordon Calloway, 2015 A balanced and readable account of the 1791 battle between St Clair's US forces and an Indian coalition in the Ohio valley one of the most important and under recognized events of its time

The Noname JX, 2020-06-10 These stories are of the battle between the light side and the dark side in each of us within our four brains They are the outer and inner battles of a modern Jedi As above so below Part 1 King of Spades The Moving brain Core is spirit will and chi as connectivity and how it can be used for good or evil The physical challenge of using ones will and chi and how it can be used to manipulate and control by the dark side Part 2 King of Hearts The Emotional brain Core is spirit and its centre in the heart After winning a battle deeper emotionality of the dark side remains in our heart sometimes to a great depth The poltergeist is our subconscious and how things we think we have conquered return from the dark side to haunt us Part 3 King of Diamonds The Intellectual brain Core is spirit and intelligence the bright side of the intellect and freedom versus the dark side of oppressive ego and dominance of the state Or free will versus dominance in ones mind Part 4 King of Clubs The Physical brain Core is As above so below Every person is their own planet Earth their friends orbit them and when their closest friend the moon moves out of orbit the seismic turmoil can wash them away The physical light side of our world and dark illnesses can pervade The fundamental connection between humans and the World and the route to Spirit is through their sense of humour It opens the door to the light and illuminates some dark corners

The available Process Henning Bitsch, 2021-02-05 In 4th grade 9 years old I made this sculpture out of a brick it was in the craft shop class where we had a free assignment I think that my parents teacher and classmates wondered something about my motivation I think that my interest in the creative process has been there for as long as I can remember and in hindsight I think that my alternative view of life has occasionally been of great concern to family and friends I have always been a restless human being but I remember how I could forget time and place when I was engrossed in making an art piece And specially the development of the manufacturing process could get my undivided attention for days On the other hand I did not have the patience to get the last details in my artwork however this had gotten better with age That man should be a rational being is a wrong assumption but it is unfortunately also an assumption that most welfare societies have used as a basis for building their systems The vast majority of welfare citizens adjust and adopt a rational behavior but unfortunately some of these sometimes have to resort to the medicine cabinet fortunately there is a small remnant group that has found out how to use art as a breathing space Some from this small remnant group occasionally produce some works of art that may be more or less accessible it can often help the person watching to consider the work as part of a process and sometimes it can also help to consider themselves part of the process
