A. Sutherland,2014-01-13 This topical lively and wide ranging book examines the material conditions under which the contemporary English novel is produced and consumed Its starting point is the general economic emergency which showed up these conditions with unusual clarity in the early 1970s The first section of the book Crisis and Change considers the changing patterns of institutional book purchase inflation and novel production the Americanisation of the British book trade and the present state of fiction reviewing The second section State Remedies surveys such interventions and failed interventions as Public Lending Right Arts Council patronage and university support for creative writers The third section Trends Mainly American selects specific areas paperback publishing self publishing book clubs television work which offer pointers to significant future developments in British literary culture Fiction and the Fiction Industry pays close attention to actual novels combining literary criticism with its examination of the book trade Faithful Fictions Thomas M. Woodman,2022-02-25 Catholic writers have made a rich contribution to British fiction despite their minority status Evelyn

Wagh Graham Greene and Muriel Spark are well known examples but there are many other significant novelists whose work has a Catholic aspect This is the first book to survey the whole range of this material and examine whether valid generalizations can be made about it In charting such fiction from its development in the Victorian period through to the work of contemporaries such as David Lodge the author analyses its complex relationships with changes in British society and the international Church There is more than one way of being a Catholic as Woodman shows but he also demonstrates that many of these writers share common themes and a distinctive perspective They often wish in particular to use their religion as a weapon against what they portray as a complacent Protestant or secular society Their consciousness of writing in the midst of such a society gives a special edge to their treatments of the perennial Catholic themes of suffering sin and sex It also has implications for literary form and relates to what has been seen as the extremist mode of Catholic fiction The final question that Woodman puts is whether the changes in the Church since the Second Vatican Council must inevitably lead to the loss of this distinctive Catholic contribution to the novel

Lives of the Novelists John Sutherland,2011-10-27

Arranged in chronological order the novelist s lives are opinionated informative frequently funny and often shocking Professor Sutherland s authors come from all over the world their writings illustrate every kind of fiction from gothic penny dreadfuls and pornography to fantasy romance and high literature The book shows the changing forms of the genre and how the aspirations of authors to divert and sometimes to educate their readers has in some respects radically changed over the centuries and in others such as their interest in sex and relationships remained remarkably constant
