**The Cambridge Companion to Kazuo Ishiguro** Andrew Bennett, 2023-03-23 The Cambridge Companion to Kazuo Ishiguro offers an accessible introduction to key aspects of the novelist's remarkable body of work. The volume addresses Ishiguro's engagement with fundamental questions of humanity and personal responsibility with aesthetic value and political valency with the vicissitudes of memory and historical documentation and with questions of family home and homelessness. Focused through the personal experiences of some of the most memorable characters in contemporary fiction, Ishiguro's writing speaks to the major communitarian questions of our time: questions of nationalism and colonialism, race and ethnicity, migration, war, and cultural memory and social justice. The chapters attend to Ishiguro's highly readable novels while also ranging across his other creative output. Gathering together established and emerging scholars from the UK, Europe, the USA, and East Asia, the volume offers a survey of key works and themes while also moving critical discussion forward in new and challenging ways.

*National Medievalism in the Twenty-first Century* Matthias D. Berger, 2023 How ideas and ideals of an imagined protean national Middle Ages have once again become a convergence point for anxieties about politics, history, and cultural identity in our time and why. After a period of abeyance, the link forged in the nineteenth century between the Middle Ages and national identity is increasingly being reclaimed with numerous groups and individuals mining an imagined medieval past to present ideas and ideals of modern nationhood. Today's national medievalism asserts itself at the interface of culture and politics in literature and television programming, in journalism and heritage tourism, and in the way political actors of various stripes use a deep past that supposedly proves the nation's steady exceptionalism in a hectic globalised world. This book traces these ongoing developments in Switzerland and Britain, two countries where the medieval past has recently been much invoked in negotiations of national identity, independence, and Euroscepticism. Through comparative analysis, it explores examples of reemerging stories of national exceptionalism, stories that ironically echo those of other nations. The author analyses depictions of Robert the Bruce and Wilhelm Tell, medievalism in the discourse surrounding Brexit, as well as at the Welsh Senedd, novels like Paul Kingsnorth's *The Wake*, community-based art such as the Great Tapestry of Scotland, and elaborate public commemorations of Swiss victories and defeats in battle. Basing his critical readings in current theories of cultural memory, heritage, and nationalism, the author explores how the protean national Middle Ages have once again become a convergence point for anxieties about politics, history, and cultural identity in our time and why.

Through readings of Ishiguro's repurposing of key elements of realism and modernism his interest in childhood imagination and sketching interrogation of aesthetics and ethics his fascination with architecture and the absent home and his expressionist use of imaginary space and place Kazuo Ishiguro's *Gestural Poetics* examines the manner in which Ishiguro's fictions approach but never quite reveal the ineffable inexpressible essence of his narrators emotionally fraught worlds Reformulating Martin Heidegger's suggestion that the essence of world can only be indicated as the essence of world can only be gestured towards Sloane argues that while Ishiguro's novels and short stories are profoundly sensitive to the limitations of literary form their narrators are to varying degrees equally keenly attuned to the failures of language itself In order to communicate something of the emotional worlds of characters adrift in various uncertainties while also commenting on the expressive possibilities of fiction and the mimetic arts more widely Ishiguro appropriates a range of metaphors which enable both author and character to gesture towards the undisclosable essences of fiction and being *White before whiteness in the late Middle Ages* Wan-Chuan Kao, 2024-01-09 This groundbreaking book analyses premodern whiteness as operations of fragility precarity and racialicity across bodily and nonsomatic figurations It argues that while whiteness participates in the history of racialisation in the late medieval West it does not denote skin tone alone The before of whiteness presupposing essence and teleology is less a retro futuristic temporisation one that simultaneously looks backward and faces forward than a discursive figuration of how white becomes whiteness Fragility delineates the limits of ruling ideologies in performances of mourning as self defence against perceived threats to subjectivity and desire precarity registers the ruptures within normative values by foregrounding the unmarked vulnerability of the body politic and the violence of cultural aestheticisation and racialicity attends to the politics of recognition and the technologies of enfleshment at the systemic edge of life and nonlife *Brexlit* Kristian Shaw, 2021-07-29 Britain's vote to leave the European Union in the summer of 2016 came as a shock to many observers But writers had long been exploring anxieties and fractures in British society from Euroscepticism to immigration to devolution to post truth narratives that came to the fore in the Brexit campaign and its aftermath Reading these tensions back into contemporary British writing Kristian Shaw coins the term
