God W. Jay Wood, 2014-12-05 This book explores two foundational questions about God are there adequate reasons to think that God exists and if God exists what is God like The first and main question of the book takes up epistemological concerns focusing on arguments for and against the claim that theism is rationally justifiable Metaphysical questions about God s nature in particular God s knowledge and power comprise the second part of the volume These two questions are related since if the concept of a God perfect in wisdom power and goodness is incoherent it cannot be reasonable to believe that God exists By exploring these foundational questions about God readers will be able and I hope eager to tackle more specialized and complex questions in the philosophy of religion
