Differentiating Development Soumya Venkatesan, Thomas Yarrow, 2012-04-01 Over the last two decades anthropological studies have highlighted the problems of development as a discursive regime arguing that such initiatives are paradoxically used to consolidate inequality and perpetuate poverty This volume constitutes a timely intervention in anthropological debates about development moving beyond the critical stance to focus on development as a mode of engagement that like anthropology attempts to understand represent and work within a complex world By setting out to elucidate both the similarities and differences between these epistemological endeavors the book demonstrates how the ethnographic study of development challenges anthropology to rethink its own assumptions and methods In particular contributors focus on the important but often overlooked relationship between acting and understanding in ways that speak to debates about the role of anthropologists and academics in the wider world The case studies presented are from a diverse range of geographical and ethnographic contexts from Melanesia to Africa and Latin America and ethnographic research is combined with commentary and reflection from the foremost scholars in the field

Advances in Quantitative Ethnography Andrew R. Ruis, Seung B. Lee, 2021-01-28 This book constitutes the refereed proceedings of the Second International Conference on Quantitative Ethnography ICQE 2020 held in February 2021 Due to the COVID 19 pandemic the conference has been postponed to 2021 and was held in online format The 28 full papers were selected from 56 submissions The contributions in this volume come from diverse fields and perspectives and present the studies on advantages of using quantitative ethnography methods and techniques in a number of different domains and contexts including ethnography and statistics human interpretation and machine processing etc Malayalam Verbs Amanda Swenson, 2019-09-23 This book using Malayalam as a case study provides an in depth exploration of how inflectional suffixes should be separated from the verb and the implications this has for the syntax and semantics Past work has proposed that Malayalam lacks a Tense Phrase and tense morphology i.e. is tenseless However this book shows that Malayalam behaves differently from other tenseless languages and that it does have tense morphology It also provides evidence that there is a Tense Phrase in the syntax In addition it examines what have been called the two imperfectives and argues that one is a type of progressive while the other is a pluractional marker and shows that Malayalam lacks perfect morphology and a Perfect Phrase in minimally Universal perfects With respect to finiteness among other things it argues that Conjunctive Participles are best analyzed as a type of absolute adjunct and that athu gerunds involve nominalization above the Tense Phrase level This book will be a valuable resource for anyone interested in cross linguistic variation in Tense Aspect Modality and or the morphosyntax or morphosemantics of Dravidian languages **Catalog of Copyright Entries** Library of Congress.
