Extra-regional Powers in Latin America in the 21st Century Ekaterina Kosevich,2024-11-04 Latin America and the Caribbean LAC is a unique region with a sharply changing political and ideological orientation from a left turn to a right curve which means it is difficult to build stable and predictable international relations with the region At the beginning of the 21st century we witnessed a sharp increase in interest in LAC from extra regional powers that due to historical cultural and geographical factors traditionally did not have strong ties with the region The 2020s is a time of competitive and systemic rivalry when the value of each individual partnership union or alliance is increasing In this regard this wave of interest in LAC is not caused by a desire to expand trade and investment presence but by the desire of new actors in the Americas to

use the region to gain greater global geopolitical influence This book addresses the question What role do extra regional actors the US China the EU and Russia play in the new system of international relations formed in LAC at the beginning of the 21st century Ultimately the book opens up a new multilateral perspective on the role and place of LAC in global processes in the context of the interaction and confrontation between the worldviews of the West and the non West
