Thomas Stewart Traill

The Of Gold Leaves:

The Gold Leaves: (Being an Account and Translation from the Ancient Greek of the 'So-Called' Orphic Gold Tablets) Edward Jenner, 2014 The Gold Leaves is a study of ancient c 400BC 300AD verses often fragmentary incised on fragile gold leaves that have been found and continue to be found buried in graves and tombs in the culturally Greek parts of the Mediterranean world These leaves have been placed carefully perhaps on the chest or in the mouth or in the hand of the body The leaves are messages designed to guide the souls of the dead on their journey to immortality and paradise With this book Jenner aims to bring the Leaves to the attention of the reader who has no background in the Classics or ancient Greek but shares an interest in pre Christian ideas about the soul the Underworld and the afterlife Publisher s description The Book of Gold Leaves Mirza Waheed, 2014 The Gold Leaf Lady and Other Parapsychological Investigations Stephen E. Braude, 2008-11-15 For over thirty years Stephen Braude has studied the paranormal in everyday life from extrasensory perception and psychokinesis to mediumship and materialization The Gold Leaf Lady and Other Parapsychological Investigations is a highly readable and often amusing account of his most memorable encounters with such phenomena Here Braude recounts in fascinating detail five particular cases some that challenge our most fundamental scientific beliefs and others that expose our own credulousness Braude begins with a south Florida woman who can make thin gold colored foil appear spontaneously on her skin He then travels to New York and California to test psychokinetic superstars and frauds like Joe Nuzum who claim to move objects using only their minds Along the way Braude also investigates the startling allegations of K R a policeman in Annapolis who believes he can transfer images from photographs onto other objects including his own body and Ted Serios a deceased Chicago elevator operator who could make a variety of different images appear on Polaroid film Ultimately Braude considers his wife s surprisingly fruitful experiments with astrology which she has used to guide professional soccer teams to the top of their leagues as well as his own personal experiences with synchronicity a phenomenon he argues that may need to be explained in terms of a refined extensive and dramatic form of psychokinesis Heady provocative and brimming with eye opening details and suggestions The Gold Leaf Lady and Other Parapsychological Investigations will intrigue both adherents and detractors of its controversial subject matter alike An Elementary Treatise on Electricity James Clerk Maxwell, 2013-02-04 Albert Einstein characterized the work of James Clerk Maxwell as the most profound and the most fruitful that physics has experienced since the time of Newton Max Planck went even further declaring that he achieved greatness unequalled and Richard Feynman asserted that From a long view of the history of mankind seen from say ten thousand years from now there can be little doubt that the most significant event of the nineteenth century will be judged as Maxwell s discovery of the laws of electrodynamics Maxwell made numerous other contributions to the advancement of science but the greatest work of his life was devoted to electricity An Elementary Treatise on Electricity appeared at a time when very few books on electrical measurements were available to students and its

compact treatment not only elucidates the theory of electricity but also serves to develop electrical ideas in readers minds The author describes experiments that demonstrate the principal facts relating an electric charge as a quantity capable of being measured deductions from these facts and the exhibition of electrical phenomena This volume published posthumously from Maxwell s lecture notes at the Cavendish Laboratory which he founded at the University of Cambridge is supplemented by a selection of articles from his landmark book Electricity and Magnetism A classic of science this volume is an eminently suitable text for upper level undergraduates and graduate students *The London and Edinburgh Philosophical Magazine and Journal of Science ; Conducted by Sir David Brewster, Richard Taylor, and Richard Phillips* David Brewster,1839 *The London and Edinburgh philosophical magazine and journal of science* Naturforschende Gesellschaft in Zürich,1839 *The London and Edinburgh Philosophical Magazine and Journal of Science* ,1839 **The Encyclopaedia Britannica** ,1855
