Dostoevsky in Context Deborah A. Martinsen, Olga Maiorova, 2016-01-05 This volume explores the Russia where the

great writer Fyodor Dostoevsky 1821-81 was born and lived in Russia. It focuses not only on the Russia depicted in Dostoevsky's works but also on the Russian life that he and his contemporaries experienced on social practices and historical developments: political and cultural institutions, religious beliefs, ideological trends, artistic conventions, and literary genres. Chapters by leading scholars illuminate this broad context, offer insights into Dostoevsky's reflections on his age, and examine the expression of those reflections in his writing. Each chapter investigates a specific context and suggests how we might understand Dostoevsky in relation to it. Since Russia took so much from Western Europe throughout the imperial period, the volume also locates the Russian experience within the context of Western thought and practices, thereby offering a multidimensional view of the unfolding drama of Russia versus the West in the nineteenth century.

Grief and Its Transcendence Adele Tutter, Léon Wurmser, 2015-09-16 Grief and its Transcendence: Memory, Identity, Creativity is a landmark contribution that provides fresh insights into the experience and process of mourning. It includes fourteen original essays by pre-eminent psychoanalysts, historians, classicists, theologians, architects, art historians, and artists that take on the subject of normal rather than pathological mourning. In particular, it considers the diversity of the mourning process, the bereavement of ordinary vs. extraordinary loss, the contribution of mourning to personal and creative growth, and individual, social, and cultural means of transcending grief. The book is divided into three parts, each including two to four essays followed by one or two critical discussions. Co-editor Adele Tutter's Prologue outlines the salient themes and tensions that emerge from the volume. Part I juxtaposes the consideration of grief in antiquity with an examination of the contemporary use of memorials to facilitate communal remembrance. Part II offers intimate first-person accounts of mourning from four renowned psychoanalysts that challenge long-held psychoanalytic formulations of mourning. Part III contains deeply personal essays that explore the use of sculpture, photography, and music to withstand, mourn, and transcend loss on individual, cultural, and political levels. Drawing on the humanistic wisdom that underlies psychoanalytic thought, co-editor Léon Wurmser's Epilogue closes the volume. Grief and its Transcendence will be a must for psychoanalysts, psychotherapists, psychiatrists, and scholars within other disciplines who are interested in the topics of grief, bereavement, and creativity.

In Translation Esther Allen, Susan Bernofsky, 2013-06-04 Celebrated practitioners speak on the creative, critical, political, and historical aspects of their work.

Approaches to World Literature Joachim Küpper, 2013-12-20 The present volume introduces new considerations on the topic of World Literature, penned by leading representatives of the discipline from the United States, India, Japan, the Middle East, England, France, and Germany. The essays revolve around the question of what, specifically, in today's rapidly globalizing world may be the productive implications of the concept of World Literature, which was first developed in the 18th century and then elaborated on by Goethe. The discussions include problems such as different script systems with varying literary functions, as well as questions addressing the relationship between ethnic self-description and cultural belonging. The contributions result from a conference that took place at the Dahlem Humanities Center, Freie

Universit t Berlin in 2012 *Translation and the Problem of Sway* Douglas Robinson,2011-05-18 In *Translation and the Problem of Sway* Douglas Robinson offers the concept of sway to bring together discussion of two translational phenomena that have traditionally been considered in isolation i e norms and errors norms as ideological pressures to conform to the source text and deviations from the source text as driven by ideological pressures to conform to some extratextual authority The two theoretical constructs around which the discussion of translational sway is organized are Peirce s interpretant as rethought by Lawrence Venuti and narrativity as rethought by Mona Baker Robinson offers a series of friendly amendments to both looking closely at specific translation histories Alex Matson to and from Finnish two English translations of Dostoevsky as well as theoretical models from Aristotle to Peirce to expand the range and power of these concepts In addition to translation and interpreting scholars this book will be of interest to scholars of communication and social interaction Virginia Woolf's Portraits of Russian Writers Darya Protopopova,2019-02-05 Virginia Woolf always stayed ahead of her time Championing gender equality when women could not vote publishing authors from Pakistan France Austria and other parts of the world while nationalism in Britain was on the rise and befriending outcasts and social pariahs As such what could have possibly interested her in the works of nineteenth century Russian writers austere and at times misogynistic thinkers preoccupied with peasants priests and paroxysms of the soul This study explains the chronological and cultural paradox of how classic Russian fiction became crucial to Woolf s vision of British modernism We follow Woolf as she begins to learn Russian invents a character for a story by Dostoevsky ponders over Sophia Tolstoy s suicide note and proclaims Chekhov a truly modern writer The book also examines British modernists fascination with Russian art looking at parallels between Roger Fry s articles on Russian Post Impressionists and Woolf s essays on Chekhov Dostoevsky Tolstoy and Turgenev **Turned Inside Out** Steven Shankman,2017-05-15 In *Turned Inside Out Reading the Russian Novel in Prison* Steven Shankman reflects on his remarkable experience teaching texts by Fyodor Dostoevsky Vasily Grossman and Emmanuel Levinas in prison to a mix of university students and inmates These persecuted writers Shankman argues that Dostoevsky s and Levinas s experiences of incarceration were formative describe ethical obligation as an experience of being turned inside out by the face to face encounter Shankman relates this experience of being turned inside out to the very significance of the word God to Dostoevsky s tormented struggles with religious faith to Vasily Grossman s understanding of his Jewishness in his great novel *Life and Fate* and to the interpersonal encounters the author has witnessed reading these texts with his students in the prison environment *Turned Inside Out* will appeal to readers with interests in the classic novels of Russian literature in prisons and pedagogy or in Levinas and phenomenology At a time when the humanities are struggling to justify the centrality of their mission in today s colleges and universities Steven Shankman by example makes an undeniably powerful case for the transformative power of reading great texts The Semantics of Free Indirect Discourse Regine Eckardt,2014-11-27 Free indirect discourse presents us with the inner world of protagonists of a story We seem to

see the world through their eyes and listen to their inner thoughts The present study analyses the logic of free indirect discourse and offers a framework to represent multiple ways in which words betray the speaker's feelings and attitude The theory covers tense aspect temporal indexicals modal particles exclamatives and other expressive elements and their dependence on shifting utterance contexts It traces the subtle ways in which story texts can offer information about protagonists The study of free indirect discourse has been a topic of great interest in recent years in semantics and pragmatics In this book Regine Eckardt proposes a new theory of this domain and applies it to a wide variety of phenomena discourse particles exclamatives and mood in addition to the traditional indexical pronouns and tenses She situates this project within a larger attempt to extend the tools of semantic analysis to fiction Most formally oriented semanticists have not paid serious attention to this domain which has resulted in a major gap in semantic theory this book is thus a pioneering effort and raises many intriguing points The total result is an empirically rich and exciting work which will be a profitable read for researchers interested in semantics pragmatics and formal approaches to literature Eric McCready Aoyama Gakuin University
