**Criminal Reports** ,1910      **Body Law and the Body of Law** Christine M. Hassenstab,2015-01-01 For some legal philosophers if a law is procedurally correct enacted in ways constitutionally recognised and agreed upon then the content is of no significance It is a good law no matter what it does or justifies The question of one s consent or opposition to any particular law is extraneous to the legality and is regarded merely as a political matter The assumption is that a certain procedure and logic in law creation has taken place and the law can be altered by a change in political leaders in a subsequent political election However this view and assumption obscure an uncomfortable fact Some laws can be bad or immoral Critical legal theory suggests that there are often two or more sets of laws and it makes no difference if Lady Justice is blindfolded or not Laws change in the process of history in part because societal norms change As common understandings of morality evolve law adapts itself to the new moral environment Norms can change slowly or rapidly even within a lifetime This book examines both social and legal norms and theories of how they are both created Christine M Hassenstab investigates how laws on sterilization birth control and abortion were created by focusing on the act of legislation how the law was driven by scientific and social norms during the first and closing decades of the 20th century in the USA especially in the state of Indiana and Norway The primary focus of *Body Law and the Body of Law* is the sociology of law and how and why the law changes The author develops the notion body law for reproductive policies and uses sociological theories to untie the various strands of social history and legal history and looks at two cases of legislation The book is divided in to two main sections The first examines eugenic laws in the USA state of Indiana and Norway during the first decades of 20th century The second part is about the birth control and abortion debate in both countries throughout the late 1960s and 1970s Christine M Hassenstab is a lawyer and sociologist She served as a criminal defense attorney for 15 years 1987 2001 in Seattle Washington Currently she is an adviser in the EU Grants Office at the Norwegian University of Science and Technology in Trondheim Norway      *The Body as Property* Sandra Jacobs,2014-04-24 *The Body As Property* indicates that physical disfigurement functioned in biblical law to verify legal property acquisition when changes in the status of dependents were formalized It is based on the reality the cuneiform script in particular was developed in Sumer and Mesopotamia for the purpose of record keeping to provide legal proof of ownership where the inscription of a tablet evidenced the sale or transfer of property Legitimate property acquisition was as important in biblical law where physical disfigurements marked dependents in a similar way that the veil or the head covering identified a wife or concubine in ancient Assyrian and Judean societies This is primarily substantiated in the accounts of prescriptive disfigurements namely circumcision and the piercing of a slave s ear both of which were required only when a son or slave was acquired permanently It is further argued that legal entitlement was relevant also to the punitive disfigurements recorded in Exodus 21 22 24 and Deuteronomy 25 11 12 where the physical violation of women was of concern solely as an infringement of male property rights      **Death, Modernity, and the Body** Eva Åhrén,2009 Originally published in Swedish in 2002 *Death Modernity and the Body* explores

the impact of modernization on customs and practices surrounding the dead body in Sweden in the late nineteenth and early twentieth centuries This period of intense social and cultural change transformed Sweden from an agricultural society to a modern industrial state The book focuses on five arenas medical research and education displays of the dead body for entertainment purposes funerary preparations of the body memorial photography and cremation The book takes an original approach to the history of death in modern society by focusing on the dead body in intersecting cultural domains Medical scientific and technological history are thereby connected to popular culture social and political history as well as ethnography and anthropology The scholarly literature on the history of death is disproportionately focused on the Anglophone world France and Germany This study contributes to the scholarship by examining the case of Sweden where modernization was exceptionally rapid and pervasive and full of interesting particularities Book Jacket      **Literature and the Body** Anthony Purdy,2023-11-27      *Forensic Nursing* Donna M.
