

The background of the book cover is a digital illustration. It depicts a landscape with rolling hills and a path leading towards two large, lattice-structured power line towers. The sky is filled with a vibrant, swirling nebula in shades of purple, blue, and green, with a bright white light source at its center. In the foreground, three figures—a woman and two men—are seen from behind, walking along the path. The overall mood is one of wonder and exploration.

Cruising World ,1985-01 **Cruising World** ,1980-07 **The Great War in America** Garrett Peck,2018-12-04 The Great War s bitter outcome left the experience largely overlooked and forgotten in American history This timely book is a reexamination of America s first global experience as we commemorate WWI s centennial The U S steered clear of the Great War for more than two years but President Woodrow Wilson reluctantly led the divided country into the conflict with the goal of making the world safe for democracy The country assumed a global role for the first time and attempted to build the foundations for world peace only to witness the experience go badly awry and it retreated into isolationism The Great War was the first continent wide conflagration in a century and it drew much of the world into its fire By the end four empires and their royal houses had fallen communism was unleashed the map of the Middle East was redrawn and the United States emerged as a global power only to withdraw from the world s stage The United States was disillusioned with what it achieved in the earlier war and withdrew into itself Americans have tried to forget about it ever since The Great War in America presents an opportunity to reexamine the country s role on the global stage and the tremendous political and social changes that overtook the nation because of the war **The Cumulative Book Index** ,1913 **Cruising World** ,1983-01

Middle East Tapestry Roger H. Guichard Jr.,2021-02-25 Middle East Tapestry represents the final installment of my thirty plus years living and working in the Arab and Muslim worlds The previous works Masr and At the Margins covered outlying areas of the region including Egypt South Asia and West Africa This book marks a return to the central lands of Islam in the Arabian Peninsula including Saudi Arabia and Yemen with lengthy excursions into lands to the north chiefly Jordan and the West Bank The title Middle East Tapestry was chosen after careful consideration of several alternatives The term Middle East simply seemed the best descriptor of the area inhabited by the world s nearly four hundred million Arab Muslims and makes up in familiarity what it may lack in definitional precision and nuance The word tapestry technically an elaborate piece of textile work with pictures woven into the warp and weft was also carefully chosen It more generally describes an intricate combination of things or sequence of events not necessarily related that seemed to answer to the complexity of the area I am describing a tapestry of cultures races and customs Indeed there is hardly a thing in the history of the area that is not intricate or complex **The Quest** Steven P.
