The Book Of Visions:

The Book of Dreams and Ghosts Andrew Lang, 2014-04-11 The chief purpose of this book is if fortune helps to entertain people interested in the kind of narratives here collected For the sake of orderly arrangement the stories are classed in different grades as they advance from the normal and familiar to the undeniably startling At the same time an account of the current theories of Apparitions is offered in language as free from technicalities as possible According to modern opinion every ghost is a hallucination a false perception the perception of something which is not present *Allegorical Form and Theory in Hildegard of Bingen's Books of Visions* Dinah Wouters, 2022-12-05 This book analyses how the three books of visions by Hildegard of Bingen use the allegorical vision as a form of knowledge It describes how the visionary s use of allegory and allegorical exegesis is linked to theories of cognition interpretation and prophecy It argues that the form of the allegorical vision is not just the product of a medieval symbolic mentality but specific to Hildegard s position and the major transformations taking place in the prescholastic intellectual milieu such as the changing use of Scripture or the shift from traditional hermeneutics to cognitive language philosophy The book shows that Hildegard uses traditional forms of knowledge prophecy the vision monastic theology allegorical hermeneutics in startlingly innovative ways by combining them and by revising them for her own time **Ekphrasis, Vision, and Persuasion in the Book of Revelation** Robyn J.

Whitaker, 2015-11-13 Robyn J Whitaker interprets the Book of Revelation within the context of ancient rhetoric and religion She argues that the author of Revelation uses a popular rhetorical tool ekphrasis to paint word pictures of God that compete with material images to both critique image making and simultaneously make an absent God present **The Second Book of Visions. (The Continuation of J. Prescott's Visions, and the Explanation of Them Given by the Spirit to Joanna Southcott.) Few MS. Notes** Joanna SOUTHCOTT, 1803 Visions and Revelations John Taylor Dean, 1911 **Dreams That Matter** Amira Mittermaier, 2011 This brilliant study presents contemporary anthropology at its best Whether one s goal is understanding the permeability of traditions and modernities or the changing shape of religious imagination and thought in one of the most pivotal countries of the Middle East this book is an outstanding point of departure Dale F Eickelman author of *The Middle East and Central Asia An Anthropological Approach* 4th ed *Dreams That Matter* is an insightful and well crafted study of the practice of dreaming in contemporary Egypt Mittermaier provides a superb analysis of the imaginative repertoires of Islamic traditions and shows how the dream has remained not only a site of Muslim scholarly interest but an important part of the way ordinary Muslims encounter and engage with the divine Charles Hirschkind author of *Powers of the Secular Modern* Talal Asad and His Interlocutors Amira Mittermaier has given us the most complete anthropological study of dream culture in the Middle East perhaps in any culture It is a sensitive intellectually challenging indeed a courageous investigation of the psychological ontological and ethical assumptions that lie behind dreams visions and dream visitations in contemporary Egypt where the dream is a vibrant site of political religious and interpretive contest *Dreams*

That Matter will rank among the most important contributions to the anthropology of the imagination for years to come

The Book of Consciousness by Dr Bara H Loveland Have you ever wondered what Consciousness is or the mind the unconscious or Archetypes and Symbols how they work and how to define these Without arriving at the reach of Consciousness there are numerous books on consciousness there are conferences held and groups searching for consciousness with dictionaries attempting to define it Why have they not found the ultimate definition of Consciousness to this day of the publication of *The Book of Consciousness* in January 2011 Could Bara s new book *The Book of Consciousness* hold the answer Can it deliver the ultimate in Consciousness There are many other questions which science has not positively answered yet Why is it that our brain cerebrum seat of the mind has to be calmed from 40 Hertz to 8 Hertz or less literally put to sleep in order to reach highest states of awareness although the cerebrum is supposed to be the seat of the world s highest intelligence Why is this seat of highest intelligence polluting the earth to the brink of dying of life Why is the unconscious called unconscious when it is able to construct meaningful dreams and is there a difference between an Archetype and a Symbol appearing in dreams and myths Could a neurosis not be a disease And what is it the mind really knows Profound contemplation of Consciousness must lead to further questions about the origins of Archetypes and Symbols about wisdom and similarities of ancient Stone Age Symbols East Indian and Egyptian scriptures Runes Mayan glyphs and biblical Symbols or world religions in general One may wonder why an Egyptian god is frequently named in Christian churches and is mentioned in both the Old and the New Testaments Is God He and could He exist Could there be a different world behind our visible one and could we have Bio Modulators to sense the other world What can we learn form a Germanic king Is it possible that we have more than five senses and how many diseases could naturally exist Can the DNA communicate and how many laws exist in the universe What is the meaning of certain Bible verses and what could have been the message Jesus gave the world on the cross Is New Age wisdom contained in the Bible and could it be that common science limits itself when excluding miracles it could perform with ease protecting the animals from harm Are there more levels of logic than one How could we realize or activate them What is the role our belief plays in our life and in science *The Book of Consciousness* begins where common science ends Be surprised by the innovative answers with some published about 30 years ago by this author Be captivated by the author s authentic new style by the insights humor and vivid experiences enjoy the 40 figures and tables as well as exercises to reach altered states of awareness naturally and at will May *The Book of Consciousness* raise into Oneness the conscious of all those who read its 640 pages may they be the igniters inspiring divine Oneness and Love in the perception of all Genre Specialty Books *Poetry, Catastrophe, and Hope in the Vision of Isaiah* Francis Landy, 2023
