**On the Corposphere** José Enrique Finol,2021-06-08 The book presents and analyzes some of the most important issues related to the body seen as a rich and complex anthropological and semiotic object capable of playing a decisive role in the meaning making processes of cultural and social life The analysis presented in this book opens a whole set of new venues for the study of body performances and representations and shows how the embodiment of social and cultural life shape our world In all of its relationships and in itself our body works in a sort of corposphere which is in turn part of the semiosphere defined by Lotman as a continuum occupied by different types of semiotic formations It is from in by the body that all semiosis begins and ends it is in its presence and absence in its being and in its presentation amidst the lived situational life where we might discover and shape the senses of the world Many different academic fields will find in this book deep insights about how the body is at the center of cultural and social

processes     **Introducing Sociology Using the Stuff of Everyday Life** Josee Johnston, Kate Cairns, Shyon Baumann, 2017-01-06 The challenges of teaching a successful introductory sociology course today demand materials from a publisher very different from the norm. Texts that are organized the way the discipline structures itself intellectually no longer connect with the majority of student learners. This is not an issue of pandering to students or otherwise seeking the lowest common denominator. On the contrary, it is a question of again making the practice of sociological thinking meaningful, rigorous, and relevant to today's world of undergraduates. This comparatively concise, highly visual, and affordable book offers a refreshingly new way forward to reach students using one of the most powerful tools in a sociologist's teaching arsenal: the familiar stuff in students' everyday lives throughout the world: the jeans they wear to class, the coffee they drink each morning, or the phones their professors tell them to put away during lectures. A focus on consumer culture, seeing the strange in the familiar, is not only interesting for students; it is also what the authors suggest pedagogically superior to more traditional approaches. By engaging students through their stuff, this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking. It moves beyond describing what sociology is so that students can practice what sociological thinking can do. This pedagogy also posits a relationship between teacher and learner that is bi-directional. Many students feel a sense of authority in various areas of consumer culture, and they often enjoy sharing their knowledge with fellow students and with their instructor. Opening up the sociology classroom to discussion of these topics validates students' expertise on their own life worlds. Teachers in turn gain insight from the goods, services, and cultural expectations that shape students' lives. While innovative, the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester. A map on pages ii-iii identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained. Theory, method, and active learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology.

Beauty and Process Theology Patricia Adams Farmer, 2020-09-14 Is it possible to think of God as beautiful? We tend to think of God with superlatives such as omnipotence, omniscience, and infinity. By their very nature, these words tend to also make us see God as distant. It seems almost sacrilegious to speak of God in the terms we might use for any other person. Very few would think to call God beautiful. In this book, theologian and pastor Patricia Adams Farmer looks at God in precisely those terms, inviting us to move beyond limiting ways we have of speaking of God. She sees God as both beautiful and the ongoing author of beauty. God invites us in living a vision, and that vision is not just good in some abstract sense. It is attractive. It draws us in. It is active. It challenges us. Learn to think about and experience God in a new way as you bring process and beauty together. The journey is worth it.     **Proceedings of the 5th International Conference on Language, Linguistics, and Literature (COLALITE 2023)** Usep Muttaqin, Dian Bayu Firmansyah, Ambhita Dhyaningrum, Tri Wahyu Setiawan, Prasetyoningsih, Ririn Kurnia Trisnawati, 2023-11-03 This is an open access book.
