**The Reformed David(s) and the Question of Resistance to Tyranny** Nevada Levi DeLapp, 2014-08-28. This study centers on the question: how do particular readers read a biblical passage? What factors govern each reading? DeLapp here attempts to set up a test case for observing how both socio-historical and textual factors play a part in how a person reads a biblical text. Using a reception-historical methodology, he surveys five Reformed authors and their readings of the David and Saul story, primarily 1 Sam 24 and 26. From this survey, two interrelated phenomena emerge. First, all the authors find in David an ideal model for civic praxis, a Davidic social imaginary. Charles Taylor. Second, despite this primary agreement, the authors display two different reading trajectories when discussing David's relationship with Saul. Some read the story as showing a persecuted exile who refuses to offer active resistance against a tyrannical monarch. Others read the story as exemplifying active defensive resistance against a tyrant. To account for this convergence and divergence in the readings, DeLapp argues for a two-fold conclusion. The authors are influenced both by their socio-historical contexts and by the shape of the biblical text itself. Given a Deuteronomic frame conducive to the social imaginary, the paradigmatic narratives of 1 Sam 24 and 26 offer a narrative gap never resolved. The story never makes explicit to the reader what David is doing in the wilderness in relation to King Saul. As a result, the authors fill in the gap in ways that accord with their own socio-historical experiences.
