Sounds Of Burned Silence:

The Sound of Silence Nancy Epton, 2024-01-11 The Sound of Silence explores how non verbal communication in film shown primarily through the acting of Ryan Gosling provides an expressive space in which passive audience viewing is made more active by removing the expository signifier of dialogue The German Expressionist era may have been brief but the shadows cast since its end nonetheless loom large The silhouetted cigar wielding men of film noir and their respectively dark doom laden haunts mirror the angst inducing atmospheres of their forebearers while also introducing the now familiar figure of the silent hero Considering the numerous silent hero actors in film history there s one that stands out in the 21st century like no other Ryan Gosling His later career has seen some of the most iconic silent heroes of the past decade with films such as Drive Only God Forgives Blade Runner 2049 and First Man cementing him as the go to guy for a monosyllabic taciturn and moody hero whose actions speak louder than words This book argues that it is Gosling s expressive capabilities that keep audiences compelled by his performances With the use of non verbal silence combined with its counterbalance sound a more active emotive audience response can be achieved Looking further into this idea through theorists such as Michel Chion and Susan Sontag the book demonstrates that the sound of silence is one of the most meaningful cinematic sounds of all

Silent to Sound Geoff Brown, 2024-10-22 Silent cinema was never silent But from the mid 1920s onwards the sound part of the cinema experience was transformed by the arrival of films long and short with clearly audible talk music and sound effects built in It marked the most fundamental shift in cinema technology since cinema s birth The first book devoted to Britain s conversion to talkies and the result of eight years research Silent to Sound British Cinema in Transition takes a lively and comprehensive look at the production side of the British sound revolution stretching from experimental efforts in the late 19th century through the sound shorts of the 1920s to the key year of 1929 the year of Hitchcock s Blackmail Britain s first home grown talkie feature and the industry turmoil that followed The narrative concludes in 1934 when John Grierson s GPO Film Unit finally acquired sound equipment prompting a late burst of experimentation just when commercial feature soundtracks had settled down Films familiar neglected and unknown are examined overripe melodramas the lost Black Waters local versions of Hollywood musicals Harmony Heaven visually elaborate science fiction High Treason plus newsreels documentaries amateur films and the last phase of British silent production The impact of sound on studio technique is examined along with the industry s complex relations with Britain s strong theatre traditions with Europe and above all cinema s superpower America It s also never forgotten that the sound transition was shaped not just by technology but by the talents foibles and follies of individual people Film history with a human face *"Burning Interiors"* Thomas Fink, Joseph R. Lease, 2007-06 Possessing a singular musical gift David Shapiro problematizes self and culture and challenges conventional notions of fixed and commodified identity in work that discovers and resists meaning This title features essays that illuminate a useful range of Shapiro s major texts through diverse critical approaches Silent Sound Michelle Loring, 2013-05-10

Life is much simpler when myths are merely fairy tales Selissa hardly thought her life could get any weirder but the gods appeared to have developed a sadistic fondness for proving her wrong A request for her help with solving a series of mysterious attacks at a temple seemed fairly simple But everything suddenly becomes far more complicated once Selissa is told who she needs to protect from the unknown assailant Because the target just happens to be the son of the archangel Arnath

Eros

Jaideven,2025-05-30 She watched the world burn and still chose to give birth This is not a book about faith This is a book about what comes after the faith breaks About what s left when prayers fade into silence and silence answers back The Son of Silence revisits an ancient story through a radically human lens You think you know the tale You ve heard it before in temples in whispers in dusty pages written by men But this time it s the silence that speaks This is the journey of a woman silenced by history A man torn between divine expectation and human emotion A love that shouldn t exist yet grows in the shadows of trauma and prophecy In this version saints are not untouchable Angels don t always come with wings And demons often wear the face in the mirror You ll meet characters who bleed who doubt who ache for a peace that never comes You ll walk through pages that echo with ancestral wounds forbidden desire and sacred contradictions There is romance here raw broken beautiful There is drama not made of miracles but of the cost they leave behind And there is emotion pulsing in every word every choice every silence Each chapter peels a layer of myth to reveal the skin underneath The tenderness of rebellion The softness inside the scream The moment a mother decides to hold her child even when she knows the world is unworthy This book does not promise answers It won t make you feel safe But it will make you feel Because before there were gods prophets or wars There was a woman And her silence And a son who came from both This is The Son of Silence And if you think you know the story you haven t heard it like this

Sound Poetics Seán Street,2017-07-14 This book

examines sonic signals as something both heard internally and externally through imagination memory and direct response In doing so it explores how the mind makes sound through experience as it interprets codes on the written page and creates an internal leitmotif that then interacts with new sounds made through an aural partnership with the external world chosen and involuntary exposure to music and sound messages both friendly and antagonistic to the identity of the self It creates an argument for sound as an underlying force that links us to the world we inhabit an essential part of being in the same primal sense as the calls of birds and other inhabitants of a shared earth Street argues that sound as a poetic force is part of who we are linked to our visualisation and sense of the world as idea and presence within us This incredibly interdisciplinary book will be of great interest to scholars of radio sound media and literature as well as philosophy and psychology
