Wragg,2016-09-23 The role of the bomber has proved to be one of the most controversial aspects of twentieth century warfare Bombers tells the story of the bomber with a blend of narrative and personal accounts recording the history of the principle bombing raids and the skill and courage of those who flew them David Wragg begins with a brief overview of the origins of the concept of aerial bombardment which astonishingly go back several thousand years He then describes the early raids of the First World War and the use of the bomber between the wars by the Germans in the Spanish Civil War the Italians in Abyssinia and by the Japanese in China The Second World War marked the massive deployment of the bomber by the main combatants as a major tactical and strategic weapon and bringing this in depth study up to date Wragg examines the United States controversial campaign of extensive bombing in Vietnam during the 1960s and 70s He also discusses whether with the growing use of cruise missiles the manned bomber may soon be the first element of air power to be made redundant in this age of high technology Fully illustrated with a wide selection of photographs Bombers will appeal to all with an interest in this key weapon of twentieth century warfare **War of Intervention in Angola** Adrien Fontanellaz,Tom Cooper,José

Augusto Matos,2021-06-23 War of Intervention in Angola Volume 4 continues the coverage of the operational history of the Angolan Air Force and Air Defense Force FAPA DAA as told by Angolan and Cuban sources in the period 1985-1988 Many accounts of this conflict better known in the West as the Border War or the Bush War as named by its South African participants consider the operations of the FAPA DAA barely worth commentary At most they mention a few air combats involving Mirage F 1 interceptors of the South African Air Force SAAF in 1987 and 1988 and perhaps a little about the activity of the FAPA DAA's MiG 23s However a closer study of Angolan and Cuban sources reveals an entirely different image of the air war over Angola in the 1980s indeed it reveals the extent to which the flow of the entire war was dictated by the availability or the lack of air power These issues strongly influenced the planning and conduct of operations by the commanders of the Angolan and Cuban forces Based on extensive research with the help of Angolan and Cuban sources War of Intervention in Angola Volume 4 traces the Angolan and Cuban application of air power between 1985-1988 during which it came of age and the capabilities intentions and the combat operations of the air forces The volume is illustrated with 100 rarely seen photographs half a dozen maps and 15 color profiles and provides a unique source of reference on this subject

Minding the Gap Between Restorative Justice, Therapeutic Jurisprudence, and Global Indigenous Wisdom Saade, Marta Vides, Halder, Debarati, 2022-10-28 Foundational principles of the contemporary practices of both restorative justice and the concept of therapeutic jurisprudence often import organic and indigenous practices of conflict resolution to resolve insufficiencies and even to explain fundamental ideas. Too often, the indiscriminate use of such practices does not mind the gap between the defining principles, the guiding principles, or the limiting principles that challenge particular features of practical applications. *Minding the Gap Between Restorative Justice, Therapeutic Jurisprudence, and Global Indigenous Wisdom* gives an authentic voice to practitioners and theorists whose work originates in organic or indigenous conflict resolution. It raises awareness of the diversity of approaches to dispute resolution from the deep perspective of their foundations and understands the challenges that arise in the practical application of restorative justice and therapeutic jurisprudence models when using principles disconnected from their foundation. It further offers ways to bridge the gap so that it is no longer an obstacle but a source of transformation. Covering topics such as justice praxes, indigenous conflict resolution, and global indigenous wisdom, this premier reference source is a dynamic resource for HR managers, lawyers, government officials, mediators, counselors, students, and faculty of higher education, librarians, researchers, and academicians.
