Amanda Dissel, Cheryl Frank, 2012 *Security, Governance, and State Fragility in South Africa* Edward L. Mienie, 2020-03-06

Do existing measures of state fragility measure fragility accurately Based on commonly used fragility measures South Africa SA is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that SA may be suffering from latent state fragility Based on a comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the security system especially with respect to the police system and mounting economic challenges may be undermining the stability of SA in ways undetected by commonly used measures of state fragility Using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make South Africa a latently fragile state Conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility Practically this study offers a number of concrete policy recommendations for how South Africa may address mounting levels of latent state fragility

apartheid to a constitutional democracy in South Africa brought with it a plethora of questions concerning ideas of nationhood citizenship and organisational transformation Integrally caught up in the revolution the South African Police Service SAPS faced transformative challenges on scales far larger than most other organisations in the country From being the strong arm of the oppressive elite it has had to restructure and rearticulate its function while simultaneously attempting to maintain law and order Like many other corporations and organisations the SAPS has engaged in interventions aimed at aiding the fluidity of this process Andrew Faull s thesis is an analysis of one such intervention focusing on SAPS members at one particular station It attempts to ascertain the extent to which members are changing as a result of particular diversity workshops conducted in a region of the Western Cape This work brings together an under examined intersection of diversity and police cultural theory in South Africa emphasizing the need for greater attention to these issues The project of Student Publications has been designed by SAVUSA NiZA and SANPAD to try and stimulate publication in the Netherlands of excellent South African MA theses on relevant Southern African themes Page 4 of cover Foreign Operations, Export Financing, and Related Programs Appropriations for 2006 United States.
