the promotion of social justice in education for immigrants and refugees **A Century of Geography at Stellenbosch University 1920-2020** Gustav Visser, Jan de Waal, 2020-09-28 A Century of Geography at Stellenbosch University 1920 2020 focuses on the establishment and development of geography as an academic discipline at Stellenbosch South Africa's founding geography department. The ways in which the department currently operates are deemed fundamentally joined to its past and pave the way for the evolution of geography and its various subdisciplines going forward. It also furnishes the academic geography community at Stellenbosch and geography more broadly with some insights into its past development and more recent changes along with a complete bibliography of conducted research.

Understanding the Higher Education Market in Africa Emmanuel Mogaji, Felix Maringe, Robert Ebo Hinson, 2020-03-06 This book offers theoretical and practical insights into the marketing of higher education in Africa. It explores the key players, challenges, and policies affecting higher education across the continent, their marketing strategies, and the students' selection process. While acknowledging the vast size of the continent, this book aims to provide an understanding of the dynamics of higher education in Africa. This book recognises the private and government involvement in higher education provision and students and staff as stakeholders in the marketisation process. Strategic efforts are directed by universities to attract prospective students. This book further addresses issues such as the responses of higher education sectors to the notion of markets and marketing, consumerism, and competition in higher education in Africa, conceptions of the commodification of higher education in Africa, and the dominance of Western epistemologies and their influence in transforming higher education sectors. Students as consumers in increasingly marketised higher education sectors in Africa are also discussed. Though primarily for marketing students and academic researchers, the book's feature of blended theoretical and practical knowledge means that it will also be of interest to marketing practitioners and university managers. *The Routledge Handbook of English-Medium Instruction in Higher Education* Kingsley Bolton, Werner Botha, Benedict Lin, 2024-03-21 This Handbook discusses the theoretical and disciplinary background to the study of English medium instruction (EMI) in higher education worldwide.
