Understanding Popular Culture Steven L. Kaplan, 2012-01-02

Understanding Popular Culture *THE SPACE TRILOGY - Out of the Silent Planet, Perelandra & That Hideous Strength* C. S. Lewis, 2023-12-29

C. S. Lewis's *The Space Trilogy* which encompasses the novels *Out of the Silent Planet*, *Perelandra*, and *That Hideous Strength* intricately weaves science fiction with profound philosophical and theological questions. Set against the backdrop of interplanetary travels and the cosmic struggle between good and evil, these narratives challenge readers to contemplate humanity's place in a broader universe. Lewis's literary style merges vivid imaginations with rich allegorical elements, showcasing his ability to blend narrative with deep moral inquiry reflecting the modernist anxieties of the mid 20th century while tapping into classical myth and spirituality. C. S. Lewis, renowned for his works in Christian apologetics and fantasy, drew from his own experiences in both the academic and theological realms to craft this trilogy. His background as a scholar at Oxford and his personal conversion to Christianity infused the trilogy with introspective explorations of faith and reason, navigating themes of redemption, sacrifice, and the implications of technological advancements on moral values. For readers seeking not only imaginative storytelling but also a thoughtful examination of existential themes, *The Space Trilogy* is highly recommended. It invites exploration into Lewis's rich thematic tapestry, making it a seminal read for enthusiasts of speculative fiction and those interested in the interplay of science, ethics, and spirituality.

Order and Place in a Colonial City Juanita De Barros, 2003-02-19

The elites saw the city's markets and streets as dirty, filled with dangerous non-white crowds. The poor saw these public places as sites of play and livelihood. De Barros shows how these opposing views set the stage for a series of petty disputes and large-scale riots. The little traditions of Georgetown's multi-racial and multi-ethnic urban poor helped create a creole view of public spaces articulated in the course of struggle. By uncovering the popular cultural patterns that underlay much of this unrest, De Barros demonstrates both their place within a larger West Indian cultural paradigm and the emergence of a peculiarly Guianese ritual of protest.
