Commercial Insurgencies in the Networked Era Oscar Palma, 2019-03-13 This book examines the Revolutionary Armed Forces of Colombia (FARC) as a commercial insurgency through the network complex paradigm of insurgency. Countering traditional perspectives of the group, it proposes new and comprehensive explanations for the FARC's presence in Latin America. Existing narratives have portrayed the FARC as a terrorist, narco-terrorist, or criminal organization, a narrative popularized by the government offensive conducted by the Colombian state during the last couple of decades. In contrast, this book goes beyond simplistic perspectives of the FARC and instead studies the group in relation to the network complex paradigm of insurgency. It explains the organization as a commercial insurgency with three dimensions: political, criminal, and military, and understands the Colombian insurgency not as a monolith but as a system of individuals with diversified interests ranging from the highly indoctrinated to the profit-motivated. This examination allows for an analysis of some of the insurgency's most unexplored characteristics: an interest in urbanizing its actions and the increased invisibility of combatants, the significance of its political institutions, and the construction of its transnational networks. The volume also discusses the future of FARC in post-conflict Colombia, not only within the country but as an actor in the region. This work will be of much interest to students of insurgencies, military studies, Latin American studies, criminology, security studies, and IR.

The Illustrated Guide to the Content Analysis Research Project Patricia Swann, 2020-06-07 The Illustrated Guide to the Content Analysis Research Project makes mass media research more accessible through an informal and humorous student-centered approach. Author Patricia Swann provides a colorful step-by-step guide to developing a typical mass media research project using the content analysis method. The fundamental elements of this research method are presented in plainspoken language, perfect for undergraduates and new researchers, complete with engaging illustrations and an informal narrative that tackle students' most common sticking points when learning and applying research methods. Supplemented by online worksheets for further reflection, this book is an excellent companion to research-centered courses in mass media communication studies, marketing, and public relations at the introductory level. *The story of the world (by M.B. Synge).*
