Norman Mailer: The Naked and the Dead & Selected Letters 1945-1946 (LOA #364) Norman Mailer, 2023-01-10
A landmark in the modern literature of war by a still controversial literary icon Includes a selection of letters nine never before published that reveal the real life roots of one of the greatest American debut novels of the last century Nearly universally praised upon publication as an achievement inviting comparison with Tolstoy and Hemingway Norman Mailer's *The Naked and the Dead* is not just a monumental war novel but also a devastating antiwar novel exposing the primal nature of power through the interplay of a platoon of soldiers on an impossible and ultimately pointless mission on an obscure island in the Pacific during World War II Written just after the war ended in the early days of the emerging Cold War the novel daringly engages with the authoritarian impulses in the American character To celebrate and commemorate the centennial of Mailer's birth and the 75th anniversary of the publication of his unforgettable debut novel this expanded collector's edition includes a selection of 23 letters all but four from Mailer to his first wife Beatrice chosen by Mailer biographer J Michael Lennon that reveals the keen insight and powerful ambition of a brilliant young writer grappling with the challenge of converting the weight of experience into art *The #1 New York Times Bestseller* John Bear, 1992 Lists hundreds of books that have made the famous list and offers facts about the publishing industry authors and the list itself **Bestseller** Robert McParland, 2018-12-15 Whether curled up on a sofa with a good mystery lounging by the pool with a steamy romance or brooding over a classic novel Americans love to read Despite the distractions of modern living nothing quite satisfies many individuals more than a really good book And regardless of how one accesses that book through a tablet a smart phone or a good old fashioned hardcover those choices have been tallied for decades In *Bestseller A Century of America's Favorite Books* Robert McParland looks at the reading tastes of a nation from the beginning of the twentieth century to the present day Through extensive research McParland provides context for the literature that appealed to the masses from low brow potboilers like *Forever Amber* to Pulitzer Prize winners such as *To Kill a Mockingbird* Decade by decade McParland discusses the books that resonated with the American public and shows how current events and popular culture shaped the reading habits of millions Profiles of authors with frequent appearances from Ernest Hemingway to Danielle Steel are included along with standout titles that readers return to year after year A snapshot of America and its love of reading through the decades this volume informs and entertains while also providing a handy reference of the country's most popular books For those wanting to learn more about the history of American culture through its reading habits *Bestseller A Century of America's Favorite Books* is a must read *The History of White People* Nell Irvin Painter, 2011-04-18 A *New York Times Bestseller* This terrific new book explores the notion of whiteness an idea as dangerous as it is seductive *Boston Globe* Telling perhaps the most important forgotten story in American history eminent historian Nell Irvin Painter guides us through more than two thousand years of Western civilization illuminating not only the invention of race but also the frequent praise of whiteness for

economic scientific and political ends A story filled with towering historical figures The History of White People closes a huge gap in literature that has long focused on the non white and forcefully reminds us that the concept of race is an all too human invention whose meaning importance and reality have changed as it has been driven by a long and rich history of events

The "Good War" in American Memory John Bodnar,2010-10-01 The Good War in American Memory dispels the long held myth that Americans forged an agreement on why they had to fight in World War II John Bodnar s sociocultural examination of the vast public debate that took place in the United States over the war s meaning reveals that the idea of the good war was highly contested Bodnar s comprehensive study of the disagreements that marked the American remembrance of World War II in the six decades following its end draws on an array of sources fiction and nonfiction movies theater and public monuments He identifies alternative strands of memory tragic and brutal versus heroic and virtuous and reconstructs controversies involving veterans minorities and memorials In building this narrative Bodnar shows how the idealism of President Franklin Roosevelt s Four Freedoms was lost in the public commemoration of World War II how the war s memory became intertwined in the larger discussion over American national identity and how it only came to be known as the good war many years after its conclusion The Ship That Would Not Die Stephen J. Peacock,2011-04-01 The world is flat Maybe not says this paradigm

shifting study of globalism's impact on a region legendarily resistant to change The U S South long defined in terms of its differences with the U S North is moving out of this national and oppositional frame of reference into one that is more international and integrative Likewise as the South home to UPS CNN KFC and other international brands goes global people are emigrating there from countries like India Mexico and Vietnam and becoming southerners Much has been made of the demographic and economic aspects of this shift Until now though no one has systematically shown what globalism means to the southern sense of self Anthropologist James L Peacock looks at the South of both the present and the past to develop the idea of grounded globalism in which global forces and local cultures rooted in history tradition and place reverberate against each other in mutually sustaining and energizing ways Peacock's focus is on a particular part of the world however his model is widely relevant Some kind of grounding in locale is necessary to human beings Grounded Globalism draws on perspectives from fields as diverse as ecology anthropology religion and history to move us beyond the model advanced by such scholars as C Vann Woodward that depicts the South as a region paralyzed by the burden of its past Peacock notes that while globalism may lift old burdens it may at the same time impose new ones He also maintains that earlier regional identities have not been replaced by the rootless cosmopolitanism of cyberspace or other abstracted systems Attachments to place remain even as worldwide markets erase boundaries and flatten out differences and distinctions among nations Those attachments exert their own pressures back on globalism says Peacock with subtle strengths we should not discount *The War of My Generation* David Kieran, 2015-08-04 Following the 9 11 attacks approximately four million Americans have turned eighteen each year and more than fifty million children have been born These members of the millennial and post millennial generation have come of age in a moment marked by increased anxiety about terrorism two protracted wars and policies that have raised questions about the United States's role abroad and at home Young people have not been shielded from the attacks or from the wars and policy debates that followed Instead they have been active participants as potential military recruits and organizers for social justice amid anti immigration policies as students in schools learning about the attacks or readers of young adult literature about wars The War of My Generation is the first essay collection to focus specifically on how the terrorist attacks and their aftermath have shaped these new generations of Americans Drawing from a variety of disciplines including anthropology sociology cultural studies and literary studies the essays cover a wide range of topics from graphic war images in the classroom to computer games designed to promote military recruitment to emails from parents in the combat zone The collection considers what cultural factors and products have shaped young people's experience of the 9 11 attacks the wars that have followed and their experiences as emerging citizen subjects in that moment Revealing how young people understand the War on Terror and how adults understand the way young people think The War of My Generation offers groundbreaking research on catastrophic events still fresh in our minds **Gender and the Race for Space** Erinn McComb, 2025-06-10 The American astronaut image was informed by early Cold War ideals of masculinity that

helped mold a distinctly American anti communist masculinity which appeared on the surface anyway to resolve not only an American crisis of masculinity but helped win the Cold War on an ideological and popular level This American image focused on strict gender binaries of man as the protector controlling technology and containing communism while woman was the passive actor with spaceflight technology left behind in the home waiting for the return of the astronaut husband Allowing women to fly into space would have represented a lack of individual control with spaceflight technology Asian Diaspora and East-West Modernity Sheng-mei Ma,2012 In this book Asian Diaspora and East West Modernity Sheng mei Ma analyzes Asian diaspora and Orientalist discourse and probes into the conjoinedness of West and East and modernity s illusions Drawing from Anglo American Asian American and Asian literature as well as J horror and manga Chinese cinema the internet and the Korean Wave Ma s analyses render fluid the two hemispheres of the globe the twin states of being and nonbeing and things of value and nonentity Suspended on the stylistic tightrope between research and poetry critical analysis and intuition Asian Diaspora restores affect and heart to diaspora in between East and West at homeness and exilic attrition Diaspora by definition stems as much from socioeconomic and collective displacement as it points to emotional reaction This book thus challenges the fossilized conceptualizations in area studies ontology and modernism *Military Review* ,1955 *War Makes Men of Boys* Katherine I. Miller,2012-11-26 Hundreds of novels have been written about young men coming of age in war And millions of young men have in fact come of age in combat This is the story of one of them as told by his daughter based on the daily letters he wrote to his family in 1944 and 1945 After ten months of stateside training nineteen year old Joe Ted Bud Miller shipped out from New York harbor in November 1944 and served with the 63rd Infantry in France and Germany Although he fought with his unit at the Colmar Pocket and earned a Bronze Star for his role in pushing through the Siegfried Line his letters focus less on the details of battle than on the many aspects of his life in the military food PX movies biographies of friends and platoon mates training activities travelogues and the behavior good and bad of officers Bud s journalistic skills show in his letters and fill his reports with a wealth of objective detail as well as articulate reflections on his feelings about his experiences Katherine I Miller a communication scholar brings to her father s letters which form the centerpiece of the book her scholarly training in analyzing issues such as the development of masculinity in historical context the formation of adult identity and the psychological effects of war Further insights gained from additional personal and family archives interviews with surviving family members official paperwork the unit history of the 63rd Infantry Division 254th Regiment unit newspapers pictorial histories maps and accounts by other unit members aided her in crafting this interpretive biography The book also serves as a window onto more general questions of how individuals navigate complicated turning points thrown at them by external events and internal struggles as they move from youth to adulthood *Clearing the Way* Tom Romano,1987 Written for secondary school teachers whose job it is to help adolescents become better writers **Acts of Supremacy** Walter Francis Fitzpatrick III,2023-10-10 In Acts of Supremacy

Walter Francis Fitzpatrick III delivers a searing exposé of America's military justice system through the lens of his own harrowing experience. As a decorated Naval officer whose career was derailed by what he describes as a rigged court martial, Fitzpatrick meticulously documents how military tribunals operate outside constitutional boundaries, creating a shadow justice system where commanders wield extraordinary power over the accused. Fitzpatrick unravels the historical roots of military discipline from Roman and British traditions to modern practice, revealing how the Uniform Code of Military Justice allows for prosecutorial overreach, command influence, and denial of due process rights that would be unthinkable in civilian courts. With painstaking detail, he reconstructs his own case alongside the infamous court martial of USS Indianapolis Captain Charles McVay, demonstrating disturbing parallels of command vindictiveness and scapegoating spanning decades. This unflinching account exposes how military justice can become a weapon wielded by commanders against subordinates, raising urgent questions about constitutional protections for those who swear to defend those very rights. Fitzpatrick's narrative combines personal memoir, legal analysis, and historical research to challenge readers to consider reform of a system that impacts thousands of service members. A crucial read for military personnel, legal professionals, and anyone concerned with justice and accountability in American institutions.
