Languages Weixiao Wei, James Schnell, 2023-05-12 The Routledge Handbook of Descriptive Rhetorical Studies and World Languages offers a useful collection of papers that presents rhetorical analysis of the discursive practice in different cultural settings. Covering issues from America to Europe and Asia and topics from politics to media education to science agriculture to literature and so on, the handbook describes how language can guide listeners' interpretations, alter their perceptions and shape their worldviews. This book offers a solid foundation for rhetorical studies to become an essential discipline in arts and humanities, engendering innovative theory and applications in areas such as linguistics, literature, history, cultural studies, political science and sociology. This handbook will be crucial for students and researchers in areas such as literature and linguistics, communication studies, political science and arts and humanities in general. This book will also be useful to social science, education, business, law, science and engineering departments due to its coverage of rhetoric in a multidisciplinary and multilingual context. Upsetting Composition: Commonplaces Ian Barnard, 2014-07-15 In *Upsetting Composition: Commonplaces*, Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them. While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom, Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing. Using six major principles of writing classrooms and textbooks—clarity, intent, voice, ethnography, audience and objectivity—Barnard looks at the implications of poststructuralist theory for pedagogy. While suggesting some evocative poststructuralist pedagogical practices, the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather than on providing solutions in the form of teaching templates. *Upsetting Composition: Commonplaces* addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing.

Bullock, 2021-10 The most flexible rhetoric for a first-year writing course and every writing student. *The Norton Field Guide* lets instructors teach the way they want to teach and helps students write in the way that works best for them. In the Sixth Edition, new coauthor Deborah Bertsch shows students how to adapt their writing to new rhetorical situations with three new chapters: Remixes, Explorations and Reflecting on Your Writing. More inclusive than ever, the new edition features thirty new readings, including seventeen written by students that offer fresh and inspiring sources for writing. New videos and interactive activities in InQuizitive for Writers reveal multiple ways to understand and apply the book's advice and are complemented by new instructor resources that respond to today's teaching challenges.
