John Hackett,1901 **Deification in Eastern Orthodox Theology** Emil Bartos,2007-01-01 In recent years Eastern Orthodox thought has had an increasing influence on key aspects of contemporary Western Christian thought particularly as regards the doctrine of the Trinity and mystical spirituality However the foundations and fundamental presuppositions of Eastern Christianity s theological system have remained largely unstudied and thus unknown in the West In this important study Emil Bartos examines the doctrine of deification which provides the conceptual basis for the way Staniloae and other Orthodox theologians understand the major doctrines of the Christian faith The idea that God became man that man might become God sounds almost heretical to many Western ears yet this affirmation is repeated countless times in the writings of the Eastern Fathers Beginning with the apophaticism that lies at the heart of Eastern theology Bartos examines each of the key doctrines of anthropology christology soteriology and ecclesiology as they relate to deification in Staniloae s thought Bartos study represents not merely a contribution to contemporary dialogue between Eastern and Western theologians but also a much needed introduction to an aspect of Christian thought down the centuries that is largely neglected in the Christian West *The ^AOxford Handbook of the Bible in Orthodox Christianity* Eugen J. Pentiuc,2022-07-26 The Oxford Handbook of the Bible in Orthodox Christianity is designed to demonstrate how Orthodox Christian namely Eastern Greek Slavic Romanian Antiochene and Oriental Syriac Coptic Ethiopian and Armenian communities have received shaped and interpreted the Christian Bible The basic hallmark of Orthodox Christianity a unique mix of strictness tradition and flexibility innovation modernity is detectable at the level of text canon Scripture Tradition relationship and mostly in the area of biblical hermeneutics **Innovation in the Orthodox Christian Tradition?** Trine Stauning Willert,Lina Molokotos-Liederman,2016-05-23 The relationship between tradition and innovation in Orthodox Christianity has often been problematic filled with tensions and contradictions starting from the Byzantine era and running through the 19th and 20th centuries For a long period of time scholars have typically assumed Greek Orthodoxy to be a static religious tradition with little room for renewal or change Although this public perception continues the immutability of the Greek Orthodox tradition has been questioned by several scholars over the past few years This book continues this line of reasoning but brings it into the centre of contemporary discussion Presenting case studies from different periods of history up to the present day the authors trace different aspects in the development of innovation and renewal in Orthodox Christianity in the Greek speaking world and among the Diaspora *Sinners in the Presence of a Loving God* R. Zachary Manis,2019-06-03 In *Sinners in the Presence of a Loving God* R Zachary Manis examines in detail the several facets of the problem of hell considers the reasons why the usual responses to the problem are unsatisfying and suggests how an adequate solution to the problem can be constructed **International Handbook of Inter-religious Education** Kath Engebretson,Marian de Souza,Gloria Durka,Liam Gearon,2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development

of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace. Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being. It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding. An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community. Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893. This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity.

Towards a Theology of Psychotherapy: The Spirituality of Wendy Robinson Andrew Louth, 2024-05-30 Wendy Robinson 1934-2013 was a trained psychotherapist who became a member of the Russian Orthodox Church in England in 1980. To be able to combine these two vocations was for her to discover herself. She practised psychotherapy both with individual clients and increasingly with religious communities both Catholic and Anglican, giving retreats and one-to-one counselling and built up a strong and lasting connection with the Sisters of the Love of God in Oxford. She reflected on her dual vocation in lectures and articles, a selection of which are published in the companion volume to this book, *Cosmos Crisis and Christ*, Essays of Wendy Robinson, collected and edited by Andrew Louth, Fairacres Publications, 211 SLG Press, 2024.

His holiness Alexei II, Patriarch of Moscow and all Russia, extended greetings and Metropolitan Filaret of Minsk set the stage. History still has its shining moments. The next best thing to being there are the papers that were presented and polished for this volume.
