GEOGRAPHY

How does geography affect how a civilization develops?

The people who study history are also the people who write about history. They piece together the information they find in order to understand people from the past. Their field of study is called **historiography**.

Social scientists also use geography to study history. The book *Guns, Germs, and Steel* looks at how geography helped and hurt civilizations in the past. Jared Diamond, the book's author, explained the three factors that helped Eurasian civilizations succeed: good temperatures and locations for agriculture, resistance to certain deadly germs, and the ability to develop technology.

Where a group of people settle can affect how, when, and in what way they

develop. The island nation of Japan was very isolated from the West before the mid-1800s. By the early 1900s, Japanese people were trading with the West and the country was considered a world power. Great Britain, also an island nation, developed much earlier. Britain was part of the Roman Empire. It later joined other European countries to start colonies around the world. The British had to develop a strong navy in order to protect its own empire around the globe.

1. Why did Japan develop later than Great Britain?

The Epochs of International Law Wilhelm G. Grewe, 2013-02-06 Wilhelm G Grewe's *Epochen der Völkerrechtsgeschichte* published in 1984 is widely regarded as one of the classic twentieth century works of international law. This revised translation by Michael Byers of Duke University Durham North Carolina makes this important book available to non German readers for the first time. The Epochs of International Law provides a theoretical overview and detailed analysis of the history of international law from the Middle Ages to the Age of Discovery and the Thirty Years War from Napoleon Bonaparte to the Treaty of Versailles the Cold War and the Age of the Single Superpower and does so in a way that reflects Grewe's own experience as one of Germany's leading diplomats and professors of international law. A new chapter written by Wilhelm G Grewe and Michael Byers updates the book to October 1998 making the revised translation of interest to German international lawyers international relations scholars and historians as well. Wilhelm G Grewe was one of Germany's leading diplomats serving as West German ambassador to Washington Tokyo and NATO and was a member of the International Court of Arbitration in The Hague. Subsequently professor of International Law at the University of Freiburg he remains one of Germany's most famous academic lawyers. Wilhelm G Grewe died in January 2000. The Other Shore Michael Jackson, 2013 In this book ethnographer and poet Michael Jackson addresses the interplay between modes of writing modes of understanding and modes of being in the world. Drawing on literary anthropological and autobiographical sources he explores writing as a technique akin to ritual oral storytelling magic and meditation that enables us to reach beyond the limits of everyday life and forge virtual relationships and imagined communities. Although Maurice Blanchot wrote of the impossibility of writing the passion and paradox of literature lies in its attempt to achieve the impossible a leap of faith that calls to mind the mystic's dark night of the soul unrequited love nostalgic or utopian longing and the ethnographer's attempt to know the world from the standpoint of others to put himself or herself in their place. Every writer whether of ethnography poetry or fiction imagines that his or her own experiences echo the experiences of others and that despite the need for isolation and silence his or her work consummates a relationship with them.
