Before You Read

In this lesson, you will read about how and why we study history.

As You Read

Use a diagram to organize the lesson's main ideas and details.

GEOGRAPHY

How does geography affect how a civilization develops?

The people who study history are also the people who write about history. They piece together the information they find in order to understand people from the past. Their field of study is called **historiography**.

Social scientists also use geography to study history. The book *Guns, Germs, and Steel* looks at how geography helped and hurt civilizations in the past. Jared Diamond, the book's author, explained the three factors that helped Eurasian civilizations succeed: good temperatures and locations for agriculture, resistance to certain deadly germs, and the ability to develop technology.

Where a group of people settle can affect how, when, and in what way they

develop. The island nation of Japan was very isolated from the West before the mid-1800s. By the early 1900s, Japanese people were trading with the West and the country was considered a world power. Great Britain, also an island nation, developed much earlier. Britain was part of the Roman Empire. It later joined other European countries to start colonies around the world. The British had to develop a strong navy in order to protect its own empire around the globe.

1. Why did Japan develop later than Great Britain?

carrying out the College's multifaceted mission. Their account raises critical questions about the character of learning, the aims of teaching, and the nature of teaching as a profession. At the same time, the authors address issues that range from the role of schools in fostering individual and collective identity to the introduction of computer-mediated and online learning. Cope and Feinberg examine changes in self-understanding about fundamental ideas and chart how the College evolved from its original narrow mission of training children's schoolteachers to embracing global perspectives. A wide-ranging portrait of an institution. *Arguments for Learning* uses the School of Education to tell the stories of thinkers dedicated to the idea that education can change the world for the better. *Meggs' History of Graphic Design* Philip B.
