Congress, 1996 Doing Liberal Arts Education Mikiko Nishimura, Toshiaki Sasao, 2018-12-10 This book examines and shares concrete and specific strategies and policies for doing liberal arts education in a wide range of contexts It deepens readers understanding of the processes of adopting interdisciplinary and cross cultural approaches to the development and teaching of liberal arts courses integrating diversity and inclusion in policies and practices of liberal arts education and institutionalizing evidence based policy making Moreover it provides educators and policymakers with practical guidelines on how to incorporate core values of liberal arts education **The Humanities in Contemporary Chinese Contexts** Evelyn T. Y. Chan, Michael O'Sullivan, 2016-10-22 This book brings together the perspectives of eminent and emerging scholars on contemporary issues relevant to the practice pedagogy and institutionalization of the humanities in the three Chinese contexts of Hong Kong Taiwan and mainland China It addresses the need to investigate how humanities discussions often exclusively drawn from and grounded in western contexts are today being played out in these three places The humanities in contemporary Chinese contexts may have different social and pedagogical roles and a consideration of them will enable people to moderate and perhaps even refute claims made in the recent re readings of the humanities As Asian universities rise in the global rankings and as east west university collaborations and partnerships become more common it is important that the nature practice and institutionalization of the humanities in Hong Kong Taiwan and mainland China are explored and described for English readers Exploring new perspectives arising from an examination of the humanities in these places this volume aims neither to establish a position of polarity which would pit western sites against Chinese ones nor to argue for universal sameness Rather the goal is to find nuanced correspondences and differences between these various backgrounds so that there is a greater understanding of the specificities of Chinese contexts This will help shed light not only on the contexts in question but also potentially on how to rearticulate the importance of the humanities in general creating an intercultural dialogue focused on the humanities As the global university strives to move the different traditions of learning closer together through international rankings rubrics and shared research agendas it is important that we explore these locations of potential cultural exchange Social Media and Genre Studies Thomas Kenny, 2023-04-11 This book investigates whether Facebook and Twitter have become a genre of media for higher education institutions Thomas Kenny has conducted a mixed methods study using a combination of content analysis and interviews with social media employees to explore the purpose form and functionality of these web pages Ultimately Kenny argues that while institutional web pages on Facebook and Twitter do constitute a genre each is a separate and distinct platform that works differently with varying goals structure and effectiveness associated with them Scholars of communication information

Leslie, Marna Atkin, 2009-06-02 Cruise your way to the Ivy League It s no secret that it s harder to get into college these days Ivy League and other selective schools have record numbers of applicants making the competition even steeper This must have guide carefully explores the to do s to gain admission to a top tier school Students and parents will learn about choosing the right school what college admissions officers really consider when making their decisions early decision versus early action and what being on the waitlist means Provides sample essays recommendation forms resources and websites Includes advice from guidance counselors and admission officers of top colleges Between now and 2015 there will be more than 3 million high school graduates each year **Loving the Tasmanian Devil** Maureen McCarthy Bartlett, 2011-05-31 Having a partner with ASD can feel like a roller coaster ride for the neurotypical spouse In sharing the ups the downs the growth and the regression in their particular journey the author hopes that others on a similar path may find humor recognition and ways to view the unique life of loving an Aspergian from a new angle The Market Imperative Robert Zemsky, Susan Shaman, 2017-12-22 Thinking about American higher education as an economic market changes everything It is no surprise that college tuition and student debt are on the rise Universities no longer charge tuition to simply cover costs They are market enterprises that charge whatever the market will bear Institutional ambition along with increasing competition for students now shape the economics of higher education In The Market Imperative Robert Zemsky and Susan Shaman argue that too many institutional leaders and policy makers do not understand how deeply the consumer markets they promoted have changed American higher education Instead of functioning as a single integrated industry higher education is in fact a collection of segmented and more or less separate markets These markets have their own distinctive operating constraints and logics especially regarding price But those most responsible for federal higher education policy have made a muck of the enterprise while state policy making has all but disappeared the victim of weak imaginations insufficient funding and an aversion to targeted investment Chapter by chapter this compelling text draws on new data developed by the authors in a Gates Foundation funded project to describe the landscape how the market for higher education distributes students among competing institutions what the job market is looking for how markets differ across the fifty states and how the higher education market determines the kinds of faculty at different kinds of institutions The volume concludes with a three pronged set of policies for making American higher education mission centered as well as market smart Although there is no one size fits all approach for reforming higher education this clearly written book will productively advance understanding of the challenges colleges and universities face by providing a mapping of the configuration of the market for an undergraduate education *College Access and Opportunity Guide 2011* ,
