International Trade Negotiations and Domestic Politics Oluf Langhelle, 2013-08-29

In spite of many years of negotiation on trade liberalization progress seems to have stalled This book explores why resistance to further market liberalization seems so strong given that the benefits are seen to outweigh the costs This volume argues that in order to understand the slow progress of World Trade Organization negotiations we need to take into consideration the intermestic character of trade politics that is the way in which international and domestic aspects of politics and policies have been woven together and become inextricably related to each other This is a general trend in our globalizing world and one that is most pronounced in the case of trade politics and policy International Trade Negotiations and Domestic Politics therefore presents an in depth analysis of institutions ideas interests and actors in the interplay between international trade negotiations and national negotiating positions At the international level the authors focus on the multilateral negotiations within the World Trade Organization together with the plurilateral and bilateral negotiations on free trade agreements At the regional and domestic level they analyze the trade politics and policies of two established powers the European Union and the USA two rising powers China and India and a small industrialized country with an open economy Norway

Hoekman,Petros C. Mavroidis,2015-10-16 The World Trade Organization WTO is one of the most important international organizations in existence today It contains a set of disciplines that affect the ability of governments to impose trade restrictions and has helped to support the steady expansion of international trade since the 1950s The WTO has been the focus of vociferous protests by anti globalization

activists and has experienced great difficulties in agreeing to new trade rules since its establishment. At the same time it has become the premier global forum for the settlement of trade disputes and has proven to provide a robust framework for international cooperation in the trade area. This book separates the facts from the propaganda and provides an accessible overview of the WTO's history, structure and policies as well as a discussion of the future of the organization. It also confronts the criticisms of the WTO and assesses their validity. New to the second edition: discussion of legislative amendments to the WTO Agreement in particular; Aid for Trade; the Agreement on Trade Facilitation; and the Bali Package; evaluation of case law developments and major disputes since 2007 including analysis of the WTO and the financial crisis; in particular the trade policy responses of WTO Members and institutional response; reflection on recent shifts to mega regional agreements: TPP, TISA, TTIP and their implications; what next post Bali. Fully updated throughout, this book continues to be essential reading for students of international trade, international political economy, commercial law and international organizations as well as activists and others interested in a balanced account of a key global institution.

Handbook of Commercial Policy, 2016-12-01. Handbook of Commercial Policy explores three main topics that permeate the study of commercial policy. The first section presents a broad set of basic empirical facts regarding the pattern and evolution of commercial policy with the second section investigating the crosscutting legal issues relating to the purpose and design of agreements. Final sections cover key issues of commercial policy in the modern global economy. Every chapter in the book provides coverage from the perspectives of multilateral and where appropriate preferential trade agreements. While most other volumes are policy oriented, this comprehensive guide explores the ways that intellectual thinking and rigor organize research further making frontier level synthesis and current theoretical and empirical research accessible to all. Covers the research areas that are critical for understanding how the world of commercial policy has changed especially over the last 20 years. Presents the way in which research on the topic has evolved. Scrutinizes the economic modeling of bargaining and legal issues. Useful for examining the theory and empirics of commercial policy.

Dispute Settlement at the WTO Gregory C. Shaffer, Ricardo Meléndez-Ortiz, 2010-11-18. This examination of the law in action of WTO dispute settlement takes a developing country perspective. Providing a bottom up assessment of the challenges, experiences and strategies of individual developing countries, it assesses what these countries have done and can do to build the capacity to deploy and shape the WTO legal system as well as the daunting challenges that they face. Chapters address developing countries of varying size and wealth including China, India, Brazil, Argentina, Thailand, South Africa, Egypt, Kenya and Bangladesh. Building from empirical work by leading academics and practitioners, this book provides a much needed understanding of how the WTO dispute settlement system actually operates behind the scenes for developing countries.

Ideas, Institutions, and Trade Carsten Daugbjerg, Alan Swinbank, 2009-09-03 Agriculture has a small and declining importance in employment and income generation within the EU but a political importance well beyond its economic impact The EU's common agricultural policy CAP has often been the source of conflict between the EU and its trade partners within first the GATT and then the WTO In the Doha Round agriculture was again a sticking point resulting in setbacks and delays The position of the EU is pivotal Due to the comparatively limited competitiveness of the EU's agricultural sector and the EU's institutionally constrained ability to undertake CAP reform the CAP sets limits for agricultural trade liberalization blocking progress across the full compass of the WTO agenda Therefore the farm trade negotiation with the CAP at its core is the key to understanding the dynamics of trade rounds in the WTO The book written by a political scientist and an agricultural economist applies theory on ideas to explain how the agricultural sector came to be included in the Single Undertaking that resulted in the Uruguay Round agreements and how this led to a dynamic interplay between CAP reform and the possibility of further agricultural trade liberalization within the WTO thereby providing useful insights into international trade relations Trade Policy Flexibility and Enforcement in the WTO Simon A. B. Schropp, 2009-08-13 This law and economics analysis of contractual escape and punishment in the WTO assesses existing escape and punishment mechanisms explores the systemic implications of flaws in the international trading system and offers a reform agenda that is concrete politically realistic and systemically viable

The World Trade Organization Mitsuo Matsushita, Thomas J. Schoenbaum, Petros C. Mavroidis, Michael Hahn, 2015 This is a comprehensive overview of the law and practice of the World Trade Organization It begins with the institutional law of the WTO moving eventually to the consequences of globalization New chapters on Trade in Agriculture and on Government Procurement and Trade
