

The background of the cover is a dramatic painting of a naval battle. A large ship is on fire, with thick black smoke billowing from its deck. A bright orange streak, possibly a missile or a rocket, is seen streaking across the sky from the right side. The sea is dark and turbulent, with white foam from the ship's wake. The overall tone is somber and intense, reflecting the scale of World War II.

World War II A New History Hardcover:

WORLD WAR II , Stalin's War Sean McMeekin, 2021-04-20 A prize winning historian reveals how Stalin not Hitler was the animating force of World War II in this major new history World War II endures in the popular imagination as a heroic struggle between good and evil with villainous Hitler driving its events But Hitler was not in power when the conflict erupted in Asia and he was certainly dead before it ended His armies did not fight in multiple theaters his empire did not span the Eurasian continent and he did not inherit any of the spoils of war That central role belonged to Joseph Stalin The Second World War was not Hitler's war it was Stalin's war Drawing on ambitious new research in Soviet European and US archives Stalin's War revolutionizes our understanding of this global conflict by moving its epicenter to the east Hitler's genocidal ambition may have helped unleash Armageddon but as McMeekin shows the war which emerged in Europe in September 1939 was the one Stalin wanted not Hitler So too did the Pacific war of 1941-1945 fulfill Stalin's goal of unleashing a devastating war of attrition between Japan and the Anglo Saxon capitalist powers he viewed as his ultimate adversary McMeekin also reveals the extent to which Soviet Communism was rescued by the US and Britain's self-defeating strategic moves beginning with Lend Lease aid as American and British supply boards agreed almost blindly to every Soviet demand Stalin's war machine McMeekin shows was substantially reliant on American material from warplanes tanks trucks jeeps motorcycles fuel ammunition and explosives to industrial inputs and technology transfer to the foodstuffs which fed the Red Army This unreciprocated American generosity gave Stalin's armies the mobile striking power to conquer most of Eurasia from Berlin to Beijing for Communism A groundbreaking reassessment of the Second World War Stalin's War is essential reading for anyone looking to understand the current world order *World War Two* Jeremy Black, 2004-11-23 Cutting through over half a century of historical build up this new and convincing account of World War II uses a global perspective to explain the complicated course in military terms Black a distinguished military historian bucks the current trend to demilitarise and gives due weight to the campaigns and battles that made up the war In doing so he challenges common interpretations and includes new insights to make this one of the most exciting new histories of the Second World War Covering all the main areas of conflict the chronological approach includes analysis of attacks at land air and sea and a comparison of military resources The focus is always operational but social cultural and political aspects are also included Providing a crucial counterweight to previous histories Jeremy Black's *World War Two* offers fresh insights into operations at the Eastern Front and during the war against Japan **The Story of World War II** Donald L.
