in conjunction with Western and world history Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09

The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **The Russian Empire, Slaving and Liberation, 1480-1725** Christoph Witztenrath, 2022-11-21 The monograph realigns political culture and countermeasures against slave raids which increased during the breakup of the Golden Horde By physical defense of the open steppe border and by embracing the New Israel symbolism in which the exodus from slavery in Egypt prefigures the exodus of Russian captives from Tatar captivity Muscovites found a defensive model to expand empire Recent scholarly debates on slaving are innovatively applied to Russian and imperial history challenging entrenched perceptions of Muscovy *The Global Experience: Readings in world history to 1550* Philip F. Riley, 2002 World Civilizations Peter N. Stearns, Michael B. Adas, Stuart B. Schwartz, Marc Jason Gilbert, 2006-08-28 For today's busy student we've created a new line of highly portable books at affordable prices Each title in the Books a la Carte Plus program features the exact same content from our traditional textbook in a convenient notebook ready loose leaf version allowing students to take only what they need to class As an added bonus each Books a la Carte Plus edition is accompanied by an access code to all of the resources found in one of our best selling multimedia products Best of all Our Books a la Carte Plus titles cost less than a used textbook The primary goal of World Civilizations is to present a truly global history since the development of agriculture and herding to the present Using a unique periodization this book divides the main periods of human history according to changes in the nature and extent of global contacts This global world history text emphasizes the major stages in the interactions among different peoples and societies while also assessing the development of major societies Presenting social and cultural as well as political and economic aspects the book examines key civilizations in world history World Civilizations balances this discussion of independent developments in the world's major civilizations with comparative analysis of the results of global contact **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1967 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July-December **World Civilizations** Peter N. Stearns, Michael Adas, Stuart B. Schwartz, Marc Jason Gilbert, 2020 World history explores the human past around the globe to help us understand the world we live in today It seeks to identify how major forces like patterns of migration or world trade have developed over time It explores the cultures and political institutions of different regions to

help explain commonalities and differences World history builds on a growing body of historical scholarship some of which has truly altered the picture of the past It involves a rich array of stories and examples of human variety intriguing in themselves It helps develop skills that are vital not just to the history classroom but to effective operation in a global society skills like comparing different societies appreciating various viewpoints and identifying big changes and continuities in the human experience Always however it uses the past as a prologue to the present World historians argue that no one society past or present can be understood without reference to other societies and to larger global forces They argue even more vigorously that the present which clearly involves relationships that embrace the whole world cannot be grasped without a sense of the global historical record From its first edition *World Civilizations The Global Experience* has aimed at capturing a truly global approach by discussing and comparing major societies and focusing on their interactions The goal is to present a clear factual framework while stimulating analysis about global contacts regional patterns and the whole process of change and continuity on a world stage This kind of world history focused on the development over time of the forces that shape the world today helps students make sense of the present and prepare to meet the challenges of the future It is hard to imagine a more important topic Embracing the whole world s history obviously requires selectivity and explicit points of emphasis This text gains coherence through decisions about time about place and about topic In all three cases the book encourages analysis relating facts to vital issues of interpretation Through analysis and interpretation students become active engaged learners rather than serving as passive vessels for torrents of historical facts Underpinning analysis the issues of time place and topic are the three keys to an intelligible global past
