As *Women and Gender in International History* reveals, however, women have participated in and influenced the traditional concerns of international history even as they have expanded those concerns in new directions. Karen Garner provides a timely synthesis of key scholarship and establishes the influential roles that women and gender power relations have wielded in determining the course of international history. From the early 20th century onward, women have participated in state-to-state relations and decisions about when to pursue diplomacy or when to go to war to settle international conflicts. Particular women, as well as masculine and feminine gender role constructs, have also influenced the establishment and evolution of intergovernmental organizations and their political, social, and economic policy-making regimes and agencies. Additionally, feminists have critiqued male-dominated diplomatic establishment and intergovernmental organizations and have proposed alternative theories and practices. This text integrates women and gender and feminist analyses into the study of international history in

order to produce a broader understanding of processes of international change during the 20th and 21st centuries
