*Fort Worth from World War II to 1960* Harold Rich, 2025-09-15 *Fort Worth from World War II to 1960* reviews Fort Worth's history during the challenging times of World War II the postwar adjustment period and the first full decade of the Cold War Harold Rich tells the story in broad strokes with foci on local crime and criminals vice the police race relations and economic development What emerges is a portrait of a growing city developing major urban accoutrements such as industrialization freeways and an art infrastructure while also struggling with an active and sizable criminal underworld and the emerging Civil Rights Movement The overall impression is that the nearly two decades from 1942 to 1960 were critical to transitioning Fort Worth from a nineteenth to a twentieth century city but the end result was not an unqualified success Fort Worth would achieve significant economic progress in the 1940s especially from the addition of Convair that would expand its population at a fast pace but would lose much of that momentum in the 1950s During both decades the police confronted rising demands related to traffic control and internal corruption that most notably affected their ability to deal with gambling and prostitution both of which seemed to be everywhere As the 1950s drew to a close both vices began to subside more from a decline in public acceptance than from police activity In the 1940s and 1950s Fort Worth's criminal underworld was a major presence heavily involved in vice and in several daring robberies including a thwarted plan to rob Carswell Air Force Base The most notorious gangsters met their ends in a long running series of internal conflicts that began during the war and destroyed most of that underworld At the same time the postwar period witnessed the spread of illegal drug use across broad societal lines sparking a corresponding response by police In contrast little changed regarding race relations despite the efforts of many local activists and favorable rulings emanating from the nation's courts More significant progress would come in the 1960s and accelerate thereafter

**Unpicking Gender** Jutta Schwarzkopf, 2018-01-18 The Lancashire cotton industry doubtless counts among the most thoroughly researched industries in Britain Cotton processing has attracted attention both as the pioneer of industrialization and the harbinger of industrial decline in many ways typifying the development of the British economy from unchallenged global leader to the demise of large sectors of its manufacturing industry Yet among the spate of book and articles published about the industry there is a conspicuous lacuna Gender though rarely addressed specifically permeates the industry's historiography nonetheless This study tackles head on the notion of

gender within the cotton industry during the period 1880 1914 not so much to trace its effects on the industry itself but instead concentrating on the ways gender radicalized particularly the female workers in the Lancashire mills In so doing it promotes the view that it was women weavers experience of the way in which gender inequality in the labour process clashed with varying degrees of inequality in the other spheres of their lives that caused many of them to organize for the franchise Their experience of equality in the labour process both sensitized them to inequality elsewhere and empowered them to fight against it by showing it to be a product of society rather than nature Drawing on the examples provided by disenfranchised working class men and middle class women alike they accounted for inequality in terms of their exclusion from the polity In the process of holding their own against male co workers supervisory staff employers labour activists politicians and even many middle class women they evolved their own version of working class femininity which differed in important ways from the female domesticity that had a vibrant existence in labour rhetoric but rarely beyond

The Tragedy of Australian Foreign Policy Randall Doyle, 2022-01-27 The Evolution of Australian Foreign Policy is a book that presents a modern day argument concerning Australia's external affairs policies in the 21st century The book makes the case that it is time for Australia to move on from its historic British colonial roots and its subsequent subservient roles within the empires of Great Britain and the United States since Federation in 1901 The ongoing military debacle and strategic disaster of the U S led Iraq War has triggered a movement within Australia's intellectual and political communities to rethink Australian foreign policy An impressive group of dissenters began to question Australia's blind obedience to the post World War II American empire And since the extraordinary publication of The Palace Letters in 2020 the charm and distinction of being a part of the British Commonwealth has begun to lose its glory and uniqueness for a growing number of Australians In truth Australia is a nation in transition It is becoming an independent Republic A nation of Australians Led by an Australian president elected by

Australians The nation of Australia has come of age No more masters of any kind to rule over it Australia has finally become the master of its own destiny and fate in the 21st century      **Among the Dead Cities** A. C. Grayling,2014-04-24 Is it ever right to target civilians in a time of war Or do the ends sometimes justify the means The twentieth century the age of total war marked the first time that civilian populations came to be seen as legitimate military targets At this policy s most terrible extreme came the dropping of the atomic bomb on Hiroshima and Nagasaki but it is an issue that remains relevant today with the needs of the War on Terror used to justify the use of drone strikes In *Among the Dead Cities* A C Grayling explores these moral issues in all their complexity with a detailed examination of the Allied bombing of German cities during World War 2 Considering the cases for and against the area bombing and the experiences of the bombed and the bombers Grayling asks was the targeting of civilians in Germany a crime Now available in the Bloomsbury Revelations series the book includes a new afterword by the author considering the issues in light of later conflicts up to the present day      *Jihadi Terrorism, Insurgency, and the Islamic State* Robert J. Bunker,2017-02-16 This work is the third Small Wars Journal anthology focusing on radical Sunni Islamic terrorist and insurgent groups It covers this professional journal s writings for 2015 and complements the earlier Global Radical Islamist Insurgency anthologies that were produced as Vol I 2007 2011 published in 2015 and Vol II 2012 2014 published in 2016 This anthology which offers roughly five hundred pages of additional analysis follows the same general conceptual breakdown as the earlier works and is divided into two major thematic sections one focusing on jihadi terrorism insurgency and the Islamic State in context and the other focusing on US allied policy and counter jihadi and counter Islamic State strategies      *Corporate versus National Interest in US Trade Policy* Richard L. Bernal,2020-10-31 This book provides a history of the WTO US EU banana dispute through the lens of a major actor the US owned multinational firm Chiquita Brands International It documents and explains how Chiquita succeeded in having the Clinton administration pursue a trade policy of forcing the European Union to dismantle its preferential banana import regime for exports from the small English speaking Caribbean ESC countries The export of bananas was critically important to the social stability and economic viability of these countries and that was in the national security interest of the United States The experience indicates that succeeding in this goal was detrimental to U S national security interest in the Caribbean      *Federal Register* ,1945      *Textile World Journal* ,1919
