Oceanic Strategy Vidhan Pathak,Raghvendra Kumar,2024-12-03 This book introduces the concept of oceanic strategy expanding beyond traditional maritime and naval perspectives to include political economic socio cultural and ecological dimensions It highlights the Indian Ocean Region as a critical arena for global power competition where the abundance of resources strategic significance and emerging interests have made it a new frontier for opportunity growth and conflict By incorporating aspects like oceanic security resource exploration the blue economy and hydrography the book presents a broader view of strategic thought and the role of oceanic spaces in national and global geopolitics Focusing on key players such as India China the US and other traditional and emerging powers the book analyses the reorientation of national interests and the intensifying struggle for dominance in the Indian Ocean It argues that control over this region is crucial for attaining influence in 21st century geopolitics The work also addresses non traditional security threats like piracy and transnational crime situating the Indian Ocean at the heart of modern geopolitical discourse This book is an essential

resource for students and scholars of international relations strategic studies and political science offering critical insights into the evolving power dynamics shaping the future of the Indian Ocean Region Illusions of Location Theory: Consequences for Blue Economy in Africa Francis Onditi, Douglas Yates, 2021-01-05 Illusions of Location Theory: Consequences for Blue Economy in Africa questions the relevance of location theory in explaining the coastal hinterland continuum and the implications for the utilization of blue economy ecosystem in such a contested space in Africa It pays more attention to territorial contestations maritime disputes vulnerabilities of landlocked states and expansionist policies as displayed through spatial organizational regimes These areas of investigation have previously been largely studied from the narrow perspective of location unduly focusing on comparative advantages of distance while neglecting the influence of forces such as technology ideology and the power of mental mapping in spatial decision making This volume puts forward the argument that the harmonious relationship between states and efficient exploitation of the blue economy ecosystem in ways that promote peace between states lies not only in the structural transformation of markets but also in bridging the spatial and social divide between the coastal and hinterland societies Thus this work proffers possibilities for a holistic regime for managing Africa's coastal hinterland continuum through innovative strategies such as SMART blue economies and the infusion of the geopolitical dimension into the management of maritime and territorial diplomacy The combination of theoretical and empirical analysis buttressed by in depth case studies of what works in the management of blue economy ecosystem and what does not work make this volume ideal for researchers students and practitioners interested in African regional studies African political economy political geography strategic military studies governance of seas and oceans and maritime science diplomacy NATO, the Warsaw Pact and Africa Christopher Coker, 1985-06-17 History for the IB Diploma Paper 1 Rights and Protest Jean Bottaro, John Stanley, 2015-08-13 Comprehensive second editions of History for the IB Diploma Paper 1 revised for first teaching in 2015 This coursebook covers Paper 1 Prescribed Subject 4 Rights and Protest of the History for the IB Diploma syllabus for first assessment in 2017 Tailored to the requirements of the IB syllabus and written by experienced IB History examiners and teachers it offers authoritative and engaging guidance through the following two case studies Civil rights movement in the United States 1954 1965 and Apartheid South Africa 1948 1964

Conversations and Soliloquies Maurice Hommel, 2012-02-21 In the midst of apartheid in South Africa journalist Maurice Hommel documented the cruel injustices and tensions running rampant within the country What he saw forever impacted his life Conversations and Soliloquies presents a collection of Hommels essays and articles from the last fifty five years documenting and analyzing South African history during and after apartheid Over time the essays illuminate in sometimes graphic detail the anti apartheid struggle that defined South Africa for decades Beginning with the Sharpeville Massacre of 1960 Hommel delves into the bloody history of apartheid and traces how it pervaded every segment of society His interviews with prominent South Africans including Desmond Tutu and Neville Alexander offer intimate glimpses into the

thoughts of those working for change In addition stark photographs capture the emotions of the time In its breadth of historical perspectives this collection is a significant contribution to an understanding of South Africas evolution to a nonracial nonsexist democratic country Although lingering prejudices and smoldering resentments remain Hommel carries an unshakable optimism of South Africas enormous potential Conversations and Soliloquies captures that hope *The Protection of the Underwater Cultural Heritage* Sarah Dromgoole,2006-09-01 The legal protection of the underwater cultural heritage is a field in which there is growing international interest Shipwrecks and other underwater cultural remains in every maritime zone are threatened both by activities directed at them such as treasure hunting and by activities incidentally affecting them such as mineral exploration and exploitation pipeline and cable laying dredging and fishing Since the first edition of this collection published in 1999 the urgent need for an international legal framework to regulate these activities has been formally recognised by the adoption in 2001 of the UNESCO Convention on the Protection of the Underwater Cultural Heritage While the prospects for this Convention remain uncertain it will undoubtedly have a profound influence on national laws and practice in this field This second collection of essays examines the present state of law policy and practice in sixteen different jurisdictions around the world in light of the 2001 Convention Among other things the viewpoint of each jurisdiction in respect of the Convention is considered and the impact that the Convention is already having and is likely to have in the future is explored Eight of the essays are entirely new and several additional jurisdictions are covered Finland the Federated States of Micronesia the Netherlands New Zealand and Norway The other essays have been thoroughly updated and revised to take account of the Convention The contributors come from a variety of backgrounds but all have specialist knowledge and experience of their particular jurisdiction and a keen interest in the field **The Cutty Sark Story** John Richardson,2014-08-01 The object of this ebook is to create a more vivid impression of an historic event which took place in May 1916 off the South African coast [Africa and the New World Era](#) J.
