South African Military Skills Development Application Form 2015 16:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

21st-Century Statecraft Nayef Al-Rodhan, 2022-07-28 From civilisational frontier risks associated with new challenges like disruptive technologies to the shifting nature of great power conflicts and subversion, the 21st century requires a new approach to statecraft. In *21st Century Statecraft*, Professor Nayef Al-Rodhan proposes five innovative statecraft concepts. He makes the case for a new method of geopolitical analysis called meta-geopolitics and for dignity-based governance. He shows how in an interdependent and interconnected world, traditional thinking must move beyond zero-sum games and focus on multi-sum and symbiotic realist interstate relations. This requires a new paradigm of global security premised on five dimensions of security and a new concept of power: just power, which highlights the centrality of justice to state interests. These concepts enable states to balance competing interests and work towards what the author calls reconciliation statecraft. Throughout, Professor Al-Rodhan brings his philosophical and neuroscientific expertise to bear, providing a practical model for conducting statecraft in a sustainable way. Challenging the Aid Paradigm J.

Sörensen, 2015-12-17 *Challenging the Aid Paradigm* critically examines central aspects of Western international aid policy while at the same time exploring non-Western, especially Chinese aid, and assesses to what extent these may be competitive or complementary. Working in the Wings Elizabeth A. Osborne, Christine Woodworth, 2015-04-27 Theatre has long been an art form of subterfuge and concealment. *Working in the Wings: New Perspectives on Theatre History and Labor*, edited by Elizabeth A. Osborne and Christine Woodworth, brings attention to what goes on behind the scenes, challenging and revising our understanding of work, theatre and history. Essays consider a range of historic moments and geographic locations from African Americans' performance of the cakewalk in Florida's resort hotels during the Gilded Age to the UAW Union Theatre

and striking automobile workers in post World War II Detroit to the struggle in the latter part of the twentieth century to finish an adaptation of Moby Dick for the stage before the memory of creator Rinde Eckert failed Contributors incorporate methodologies and theories from fields as diverse as theatre history work studies legal studies economics and literature and draw on traditional archival materials including performance texts and architectural structures as well as less tangible material traces of stagecraft Working in the Wings looks at the ways in which workers identities are shaped influenced and dictated by what they do the traces left behind by workers whose contributions have been overwritten the intersections between the sometimes repetitive and sometimes destructive process of creation and the end result the play or performance and the ways in which theatre affects the popular imagination This collected volume draws attention to the significance of work in the theatre encouraging a fresh examination of this important subject in the history of the theatre and beyond *Air & Space Smithsonian* ,2016
