Culinary Colonialism, Caribbean Cookbooks, and Recipes for National Independence Keja L. Valens, 2024-02-16 Women across the Caribbean have been writing reading and

exchanging cookbooks since at least the turn of the nineteenth century. These cookbooks are about much more than cooking. Through cookbooks, Caribbean women and a few men have shaped, embedded, and contested colonial and domestic orders, delineated the contours of independent national cultures, and transformed tastes for independence into flavors of domestic autonomy. *Culinary Colonialism: Caribbean Cookbooks and Recipes for National Independence* integrates new documents into the Caribbean archive and presents them in a rare pan-Caribbean perspective. The first book-length consideration of Caribbean cookbooks, *Culinary Colonialism* joins a growing body of work in Caribbean studies and food studies that considers the intersections of food, writing, race, class, gender, and nationality. A selection of recipes culled from the archive that *Culinary Colonialism* assembles allows readers to savor the confluence of culinary traditions and local specifications that connect and distinguish national cuisines in the Caribbean. Here is a book showing how to work with the various Grimoire Daemons, most especially the ones from the Lemegeton Goetia. Either by using the methods outlined in the actual grimoire or some alternate methods, which work quite well. The original manuscripts are quite confusing, so here I discuss step by step how they mean the workings to be carried out. [The Ephemeral History of Perfume](#) Holly Dugan, 2011-09-14. In contrast to the other senses, smell has long been thought of as too elusive, too fleeting for traditional historical study. Holly Dugan disagrees, arguing that there are rich accounts documenting how men and women produced, consumed, and represented perfumes and their ephemeral effects. She delves deeply into the cultural archive of olfaction to explore what a sense of smell reveals about everyday life in early modern England. In this book, Dugan focuses on six important scents: incense, rose, sassafras, rosemary, ambergris, and jasmine. She links these smells to the unique spaces they inhabited: churches, courts, contact zones, plague-ridden households, luxury markets, and pleasure gardens, and the objects used to dispense them. This original approach provides a rare opportunity to study how early modern men and women negotiated the environment in their everyday lives and the importance of smell to their daily actions. Dugan defines perfume broadly to include spices, flowers, herbs, animal parts, trees, resins, and other ingredients used to produce artificial scents, smokes, fumes, airs, balms, powders, and liquids. In researching these Renaissance aromas, Dugan uncovers the extraordinary ways, now largely lost, that people at the time spoke and wrote about smell: objects were ambred, civited, expired, fetored, halited, resented, and smeeked, or were described as breathful, embathed, endulced, gracious, halited, incensial, odorant, pulvil, redolent, and suffite. A unique contribution to early modern studies, *The Ephemeral History of Perfume* is an unparalleled study of olfaction in the

Renaissance a period in which new scents and important cultural theories about smell were developed Dugan s inspired analysis of a wide range of underexplored sources makes available to scholars a remarkable wealth of information on the topic
