Swords, 2012 Governments around the world have had to deal with the UFO phenomenon for a good part of a century How and why they did so is the subject of UFOs and Government a history that for the first time tells the story from the perspective of the governments themselves It s a perspective that reveals a great deal about what we citizens have seen and puzzled over from the outside for so many years The story which is unmasked by the governments own documents explains much that is new or at least not commonly known about the seriousness with which the military and intelligence communities approached the UFO problem internally Those approaches were not taken lightly In fact they were considered matters of national security At the same time the story reveals how a subject with such apparent depth of experience and interest became treated as if it were a triviality And it explains why one government the United States government deemed it wise and perhaps even necessary to treat it so Though the book focuses primarily on the U S government s response to the UFO phenomenon also included is the treatment of the subject by the governments of Sweden Australia France Spain and other countries This large format fully illustrated book is the result of a team effort that called itself The UFO History Group a collection of veteran UFO historians and researchers who spent more than four years researching consulting writing and editing to present a work of historical scholarship on government response to the UFO phenomenon Michael Swords was the primary author of the United States chapters The work was coordinated and edited by Robert Powell Clas Svahn Vicente Juan Ballester Olmos Bill Chalker and Robert Powell contributed country chapters Jan Aldrich was the primary content consultant with additional content consultation and writing coming from Barry Greenwood and Richard Thieme Steve Purcell was the primary photo illustration editor From the foreword by Jerome Clark While UFOs and Government revisits an often unhappy history the reading of it is far from an unhappy experience The authors eloquent intelligent sophisticated and conscientious provide us with the first credible comprehensive overview of official UFO history in many years Most of the current volume deals with U S military and intelligence responses to the UFO phenomenon but it also features richly informative chapters that expand the story across the international arena If you re looking for an example of a nation that dealt productively with the UFO reports that came its official way you will take heart in the chapter on the French projects From here on every responsible treatment

of UFOs and government will have to cite UFOs and Government prominently among its sources this is the real story as accurately as it can be reconstructed in the second decade of the new century I expect to keep my copy close at hand and to return to it often While it cannot be said of many books UFO themed or otherwise this is among the essential ones Stray from it at your peril **UFOs and Aliens. Ancient Alien Ancestors Will Hart, 2017-07-18 Explores evidence for the theory of directed panspermia that life on Earth and the landscape of Earth itself was engineered by extraterrestrials Details how the Earth was terraformed through a sophisticated geo engineering program providing clear examples such as the precise mathematical longitude configurations of the Great Pyramid of Giza with the major rivers on Earth Shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Examines the strongest modern UFO accounts including the Russian Roswell case as well as the suppressed UFO sightings of NASA astronauts In the early 1970s Nobel Prize winning DNA co discoverer Sir Francis Crick and his colleague Leslie Orgel proposed that in the distant past an extraterrestrial race sent a spacecraft loaded with microorganisms to seed the Earth with life Now more than 40 years later the fields of space research and biotechnology have advanced to the point where they can back up Crick and Orgel's claims about our ancient alien ancestors Sharing scientific evidence of alien involvement with life on our planet and with the very landscape of Earth itself Will Hart refines the theory of directed panspermia that life was intentionally seeded on Earth by extraterrestrials to reveal that the same ET agency also created humans and generated civilization He shows how the Earth was terraformed through an engineering program so sophisticated and vast that it has escaped our attention so far for example the major rivers on Earth are precisely aligned through geo engineering with the Great Pyramid of Giza Revealing

the Great Pyramid as an alien message in stone the author explains how the Giza pyramids could not have been built by the ancient Egyptians and examines the extraterrestrial energy technologies used to move the pyramids massive stone blocks methods later rediscovered by Nikola Tesla and the builder of Coral Castle Edward Leedskalnin He details how an advanced race implanted the basic genome on Earth as well as genetically engineered the human race and shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Investigating how the extraterrestrial agency behind the origin of civilization is still working behind the scenes today the author examines the strongest modern UFO accounts including the Russian Roswell case and the suppressed UFO sightings of NASA astronauts He shows that this advanced ET civilization is not an alien race in the way we normally think of aliens they are our ancestors and as human as we are
