faithful reproduction of the 1967 Floyd Clymer publication of the official Honda Factory Workshop Manual for the 125 150
series C92 CS92 CB92 C95 and CA95 There are exhaustive tables of technical data tolerances and fits and all of the expected
data from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components
making it an invaluable resource for collectors and restorers of these classic Honda motorcycles There are 228 illustrations
and each procedure is explained in a step by step method using an appropriate illustration The translation from Japanese to
English is at times a little quirky but the profuse illustrations make up for any difficulty in understanding what needs to be
done There are separate sections that deal with the repair and overhaul procedures for the engine transmission wheels and
brakes front forks frame and carburetor plus a detailed electrical service section This is a must have reference for any Honda
enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to
purchasing one of these classic motorcycles Out of print and unavailable for many years this book is highly sought after on
the secondary market and we are pleased to be able to offer this reproduction as a service to all Honda enthusiasts
