

Suggested Project Steps:

PLAN:

1. Read the assignment sheet. Look at the sample.
2. Materials- You get ONE circle of cardboard and ONE continent sheet, so plan first, then use pencil. Scissors & markers come last!!! You may use any additional supplies to help you- markers, rulers, glue.
3. Review the requirements on the rubric.
4. Plan out how you will include all of the requirements to complete your globe.
5. Consider how you are going to show the Eastern and Western Hemispheres. Think about how the Prime Meridian will be placed before placing continents. It is suggested that you show the Western Hemisphere on one side and the Eastern Hemisphere on the other side of your globe.

CREATE:

1. **Cover the circle as close as you can.** Trace the circle and cut slightly larger so it's big enough. Fold both papers evenly in half for your Equator. Then glue on your cardboard circle.
2. **Draw in Equator & Major Lines of latitude/longitude** using a ruler. Be sure that your Equator matches up on the front and back! Use a ruler to make sure the lines are straight and appropriately placed. The tropics should be about 1 inch north/south of the Equator and the circles should be about 4 inches north/south of the Equator.
3. **Add in the continents.** You may draw, cut, trace... whatever works best for you! (Tip- Arrange the continents and check their placement accuracy in relation to the Equator, Prime Meridian, and other latitude lines BEFORE gluing or using markers.) Some continents will fold over to both sides since the Prime Meridian runs through them.
4. **Label** in the names of the lines of latitude, longitude, continents, and oceans.
5. **Add a compass rose.**
6. **Mark your location.**
7. **Add color last.** Go over important features with marker.

EXTEND (not required):

- Add additional features of (islands, more latitude/longitude, countries, seas.)
- Play the latitude/longitude, country, or continent games on Google Classroom.

Example Project- Be aware that this model is not perfect or complete! It is just meant to give you an idea of what you are working towards creating.

Understanding by Design Grant P. Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high stakes standards based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of Understanding by Design Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject areas the book demonstrates how the research based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of Understanding by Design offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike

Assessment and Intervention Issues Across the Life Span Stephanie M.C. Dollinger, Lisabeth F. DiLalla, Stephanie MC Dollinger, 2013-06-17 This volume evolved from the second life span development conference held at Southern Illinois University entitled Assessment and Intervention Across the Lifespan Providing an overview and consideration of important directions for research in areas of assessment and intervention across the lifespan the presentations covered a variety of topic areas including social ecology cultural diversity attitudes about aging as well as attention visual and linguistic skills This volume consists of chapters based on the conference presentations as well as additional chapters by experts in related specialty areas discussing attachment theory learning disabilities and phonological processing The second conference and volume continue the work of the first conference and its associated earlier volume The chapters cover important interactions between assessment and intervention for each major developmental period several emphasize the importance of early assessment and intervention A common theme found throughout is the critical connection between basic research and practice The editors hope this book will prove useful not only to researchers but also to practitioners in related disciplines working with individuals of all ages
