Lovecraft,Steven Philip Jones,2019-09-05 A chilling collection of four Lovecraft tales adapted by award winning comic writer Steven Philip Jones Lovecraft is considered one of America s most innovative and popular American horror writers The master of the weird tale during the first decades of the 20th Century until his premature death in 1937 Lovecraft s distinctive style and canon of work has influenced many authors Jones takes the classic tales and while remaining true to the source brings them into the modern age which can sometimes make the horror even more terrifying These tales are illustrated by Octavio Cariello who has worked on DC s Green Lantern Deathstroke and Black Lightning comic series The four illustrated stories within this Volume are The Lurking Fear where Arthur Monroe explores a sinkhole where bodies are found savagely torn apart as if by wild animals Beyond the Wall of Sleep shows that the power of the mind is a mysterious thing and when a researcher finds that he and a criminal patient are somehow linked the effect can go beyond just mysterious The Tomb tells the tale of Jervas Dudley who is convinced ghosts exist and when he visits the site where his ancestors perished 200 years

ago he might just find out for sure and The Alchemist for over 600 years the male descendants of the Chabrellane family have all inexplicably perished on their 32nd birthday Now the last Count de Chabrellane is about to turn 32

Relief on the Hoof Eva Plach, 2025-11-15 Relief on the Hoof is about the thousands of horses and cattle that the United Nations Relief and Rehabilitation Administration UNRRA shipped as humanitarian aid in the immediate aftermath of WWII and about the seagoing cowboys who cared for the animals during their trans Atlantic journeys UNRRA contracted the Church of the Brethren to recruit almost 7 000 men to do this work and in exchange provided free passage on its ships to the cattle that were part of the Brethren s own humanitarian initiative the Heifer Project The Heifer Project emerged from a conviction that cows and their milk offered the best value as relief commodities As Eva Plach shows both UNRRA s animal aid program and the Heifer Project were responding to a crisis in postwar Europe Millions of livestock were lost during the war and contemporary experts warned that postwar recovery food security and the prevention of social and political unrest would be compromised without replenishing the lost herds Poland received more Heifer Project cattle than any other country and was the major recipient of UNRRA cattle and horses as well Relief on the Hoof shows that Poland s special status based on assessments of wartime destruction and postwar need reflected its unique geopolitical importance as Cold War tensions mounted

Sport and the Home Front Matthew Taylor, 2020-05-31 Sport and the Home Front contributes in significant and original ways to our understanding of the social and cultural history of the Second World War It explores the complex and contested treatment of sport in government policy media representations and the everyday lives of wartime citizens Acknowledged as a core component of British culture sport was also frequently criticised marginalised and downplayed existing in a constant state of tension between notions of normality and exceptionality routine and disruption the everyday and the extraordinary The author argues that sport played an important yet hitherto neglected role in maintaining the morale of the British people and providing a reassuring sense of familiarity at a time of mass anxiety and threat Through the conflict sport became increasingly regarded as characteristic of Britishness a symbol of the ordinary everyday lives in defence of which the war was being fought Utilised to support the welfare of war workers the entertainment of service personnel at home and abroad and the character formation of schoolchildren and young citizens sport permeated wartime culture contributing to new ways in which the British imagined the past present and future Using a wide range of

personal and public records from diary writing and club minute books to government archives this book breaks new ground in both the history of the British home front and the history of sport **COSSAC** Stephen Kepher,2020-05-15 When Frederick Morgan was appointed COSSAC Chief of Staff to the Supreme Allied Commander in the spring of 1943 there was no approved plan for a cross Channel attack and no commander There was not even agreement about when the re entry into the Continent would occur The western Allies were in the midst of a great debate about the strategy or strategies to defeat Nazi Germany COSSAC s primary task was to create a plan that would be approved by the inter allied Combined Chiefs of Staff To gain that authorization Morgan had to decide where the attack was to take place address the need for improvised shelters for the transport ships until a port could be captured create all the structure necessary for a multi national force that would liberate countries not occupy them and convince his superiors that it could be done with the limited forces they were willing to provide COSSAC presents a new interpretation of Morgan s vital contributions to the development of the OVERLORD plan by exploring his leadership his unorthodox approach to problem solving and his willingness to disregard or modify orders he thought wrong By constantly taking the initiative to move the discussions forward Morgan secured the needed political approval of a concept for the Normandy landings that Montgomery and Eisenhower would modify into the D Day operational plan **Makers of Modern Strategy from Machiavelli to the Nuclear Age** Peter Paret,Gordon A. Craig,Felix Gilbert,2010-10-01 Authoritative and convincing New York Times Book Review The classic reference on the theory and practice of war The essays in this volume analyze war its strategic characteristics and its political and social functions over the past five centuries The diversity of its themes and the broad perspectives applied to them make the book a work of general history as much as a history of the theory and practice of war from the Renaissance to the present Makers of Modern Strategy from Machiavelli to the Nuclear Age takes the first part of its title from an earlier collection of essays that became a classic of historical scholarship Three essays are repinted from the earlier book while four others have been extensively revised The rest twenty two essays are new The subjects addressed range from major theorists and political and military leaders to impersonal forces Machiavelli Clausewitz and Marx and Engels are discussed as are Napoleon Churchill and Mao Other essays trace the interaction of theory and experience over generations the evolution of American strategy for instance or the emergence of revolutionary war in the modern world Still others analyze the strategy of particular conflicts the First and Second World Wars or the relationship between technology policy and war in the nuclear age Whatever its theme each essay places the specifics of military thought and action in their political social and economic environment Together the contributors have produced a book that reinterprets and illuminates war one of the most powerful forces in history and one that cannot be controlled in the future without an understanding of its past **Peace and Persistence** Mary Jane Heisey,2003 This work presents material about the Brethren in Christ a small little known religious group In addition to drawing from official church doctrine statements and records it also features a variety of authors in church
