SECOND SEMESTER REVIEW.

I. READ AND ANSWER.

Information Technology

Humans were the first "computers". Then machines were invented to carry out the computational tasks. Now these machines are being replaced by computers.

Information technology has become an essential part of our lives. Information has become accessible from anywhere.

Information technology deals with the acquisition, processing, storage and dissemination of vocal, pictorial, textual and numerical information by a microelectronics-based combination of computing and telecommunications. Thanks to the continuous development of computers, the original computing systems became minicomputers and later personal computers took the lead. Nowadays, mobile phones are dethroning the personal computer and computing is evolving faster to become disembodied more like a cloud, becoming accessible more easily whenever needed. Information technology in this sense has transformed people and companies and has allowed digital technology to influence society and economy alike.

Comprehension:

1. Information technology is changing principally because of:
 - a. ☒ the changing needs
 - b. ☐ new technological advances
2. According to the author the first computers were:
 - a. ☒ calculators
 - b. ☐ humans
3. Development of information technology is the result of:
 - a. ☒ advances in computing systems
 - b. ☐ development of machinery in general
4. Computing systems are taking the form of clouds means:
 - a. ☐ computers have become smaller
 - b. ☒ computing power will be disembodied.
