Stored-Grain Ecosystems Digvir S. Jayas, Noel D. G. White, William E. Muir, 1994-10-20 This work takes a multidisciplinary approach to grain storage research applying knowledge from the fields of biology cereal chemistry economics engineering mathematical modelling and toxicology to the study of the complex interactions among physical and biological variables in stored grain bulks that cause the deterioration of stored grain Details the prevention and control of pests and contaminants *Documentación de la FAO.*, 1987 T&T Clark Handbook of Food in the Hebrew Bible and Ancient Israel Janling Fu, Cynthia Shafer-Elliott, Carol Meyers, 2021-11-04 Food and feasting are key themes in the Hebrew Bible and the culture it represents The contributors to this handbook draw on a multitude of disciplines to offer an overview of food in the Hebrew Bible and ancient Israel Archaeological materials from biblical lands along with the recent interest in ethnographic data a new focus in anthropology and emerging technologies provide valuable information about ancient foodways The contributors examine not only the textual materials of the Hebrew Bible and related epigraphic works but also engage in a wider archaeological environmental and historical understanding of ancient Israel as it pertains to food Divided into five parts this handbook examines and considers environmental and socio economic issues such as climate and trade the production of raw materials and the technology of harvesting and food processing The cultural role of food and meals in festivals holidays and biblical regulations is also discussed as is the way food and drink are treated in biblical texts in related epigraphic materials and in iconography *Agro-Processing and Food Engineering* Harish Kumar Sharma, Navneet

Kumar,2022-03-22 This textbook highlights the engineering fundamentals and processing aspects of agricultural produce and covers important aspects of agro processing and food engineering in one place The chapters cover material handling drying size reduction process mixing and forming cleaning and separation storage and processing of cereals pulses oilseeds fruit and vegetables and their products The book s contents are systematically designed to provide a balanced overview of agro processing techniques from the basic concepts to the case study handling of the materials and different unit operations The systematic and simple elaboration of scientific aspects will make it unique and help to develop skills in the field Many illustrations in form of diagrams charts pictures provide a clear understanding Solved numerical problems which are given in the chapters will provide students clarity in conceptualizing the basics The book covers the syllabus related to agro processing and food engineering at the undergraduate and postgraduate level in various universities agricultural universities allied institutes and colleges across the globe It will be extremely beneficial to students as it covers the most important and relevant topics which are hardly covered in any other single compilation and published textbooks It would be a good textbook for universities agricultural universities institutes and colleges running courses in agriculture horticulture postharvest technology process and food engineering food engineering and technology food technology food science and food and nutrition

Humanitarian Supply Management and Logistics in the Health Sector Pan American Health Organization World Health Organization International Agency for Research on Cancer,Pan American Health Organization,2001 The management of supplies whether from an external source in most cases is a complex logistical problem that should not be left to improvised decision making The acquisition storage mobilization and distribution of supplies to the victims of a disaster require a minimum framework of organization that permits efficient handling and better use of resources This new book provides guidelines to manage this process It points out that countries and organizations should incorporate the topic of logistics into their planning and preparedness for disasters It also underlines the fact that each step in the supply chain should be seen as a critical and interrelated link

Postharvest Extension and Capacity Building for the Developing World Majeed Mohammed,Vijay Yadav Tokala,2018-12-07 It is estimated that around 1 3 billion tons per year of food produced for human consumption which is about one third of all food produced is either lost or wasted globally Reduction of the postharvest losses is being considered as one of the sustainable ways to ensure world food security Postharvest Extension and Capacity Building for the Developing World provides information on postharvest extension outreach programs capacity building and practical methodologies for postharvest extension professionals and food science teachers food processing trainers and outreach specialists who work in the field The book provides information on training of postharvest trainers food loss assessment methods capacity building in universities and agro industry distance education methods models for cost effective postharvest food processing extension work success stories and lessons learned from past projects and programs The book is divided into four sections Section I explains postharvest loss assessments methods Section

It is on capacity building and Sections III and IV focus on training and postharvest extension models. Food loss assessment methodologies are highlighted from several high profile institutions and it is envisioned that researchers and postharvest extension personnel will benefit from the development and field testing of a hybrid methodology incorporating the strengths and utilizing the best practices from each of the methodologies in current use. Chapters cover postharvest extension work and capacity building in a wide range of regions.

Good agricultural practices (GAP) Food and Agriculture Organization of the United Nations, 2023-09-05 Thorough reviews of Myanmar GAP guidelines 2018 and ASEAN GAP standards were conducted. Collaborative GAP situational analysis identified gaps in knowledge access and efficiency in inputs and service provision. Extensive secondary research, farmer discussions and stakeholder insights provided a strong basis for sesame GAP upgrade. GAP promotion aims for systematic field based impact oriented rollout with stakeholder involvement. Capacity building encompasses local practitioners, lead farmer organizations, public private partners and value chain actors. The GAP framework includes concise key messages for agronomic success in each crop practice. Capacity building through improved demonstrations, market linkages and input suppliers along with support for practitioners and extension agents is central to successful GAP rollout. Farmer field schools, IPM training, exposure visits and Information and communications technology (ICT) tools will further supplement GAP promotion.

Uniting on Food Assistance Christopher Barrett, Julia Steets, 2011-12-20 This book chronicles the most essential causes and implications of these trends which have expanded international food assistance well beyond the simple shipment of donated food aid commodities. We pay particular attention to how these trends shape and are shaped by European Union (EU) and United States (US) food assistance policy and practice and highlight the principles to which donors can adhere to move international food assistance forward.

Food loss analysis: causes and solutions – The Republic of Uganda. Beans, maize, and sunflower studies Food and Agriculture Organization of the United Nations, World Food Program, International Fund for Agricultural Development, 2019-06-28 This report illustrates the food loss assessment studies undertaken along the maize, sunflower and beans supply chains in Uganda in 2015/16 and 2016/17. They aimed to identify the critical loss points in the selected supply chains, the key stages at which food losses occur, why they occur, the extent and impact of food losses and the economic, social and environmental implications of the food losses. Furthermore, these studies also evaluated the feasibility of potential interventions to reduce food losses and waste.
