World War I, Mass Death, and the Birth of the Modern US Soldier David W. Seitz, 2018-06-20 World War I Mass Death and the Birth of the Modern US Soldier A Rhetorical History examines the United States government's postwar ideological and rhetorical project in establishing permanent national military cemeteries abroad Constructed throughout Europe where citizen soldiers had fought and perished and sacralized as American sites these burial grounds simultaneously linked the nation's war dead back to American soil and the national purpose rooted there expressed the nation's emerging prominent role on the world's stage and advanced the burgeoning icon of the sacrificial universal US soldier It draws upon untapped archival and historical materials from the WWI and interwar periods as well as original on site research to show how the cemeteries came to display and advance the vision of the modern US soldier as a global force for good Ultimately within the visual display of overseas cemeteries we can detect the birth of the modern US soldier a potent icon in which divergent emotions memories beliefs and arguments of Americans and non Americans have been expressed for a century *Bloody Old Britain* Kitty Hauser, 2015-06-04 O G S Crawford 1886 1957 thought history held the answers to everything A field archaeologist he later became a photographer flying over the Western Front during the First World War an experience that made him a pioneer of aerial archaeology An impassioned Marxist it seemed to him that 1930s Britain would soon disappear conquered by history's inevitable march to world socialism and he made a photographic study of everyday things churches and advertising hoardings as future evidence of how unenlightened British society had once been Later there came angry disillusionment and a book too bitter to be published called *Bloody Old Britain* In recounting Crawford's extraordinary story Kitty Hauser uses many of his photographs and penetrates neglected but fascinating aspects of British life and belief that have themselves become history

The New History and the Old Gertrude Himmelfarb,1987 The New History and the Old is a marvelously written perfectly serious yet vastly entertaining critique of current fashions in the writing of history social history psychoanalytic history quantitative history Marxist and neo Marxist history mentalit history As the new history is coming to dominate the profession Gertrude Himmelfarb argues it tends to supplant rather than supplement the old which centered on political constitutional diplomatic and intellectual events The effect is not only to transform the discipline of history but also to alter profoundly our sense of the past A mode of history that belittles politics and ideas denigrates the political institutions and intellectual traditions that have shaped our past and severs the continuity between past and present leaving little that is usable in their place This provocative analysis of the revolution in history as it has been called has implications that go well beyond the discipline of history itself It raises fundamental and far reaching questions about the nature of our postmodern society and will undoubtedly arouse a good deal of discussion and debate along broad cultural lines
