A Research Agenda for Employee Engagement in a Changing World of Work John P. Meyer,Benjamin Schneider,2021-03-26 This insightful Research Agenda presents the foundations of employee engagement providing a framework for future research to serve as an evidence based guide to practice Offering an overview of contemporary engagement theory and research it addresses important new directions for expanding our current understanding of the meaning focus development and outcomes of engagement *Choice* ,2009 *Applying Wisdom to Contemporary World Problems* Robert J. Sternberg,Howard C. Nusbaum,Judith Glück,2019-07-03 This book presents perspectives from world experts in the field of wisdom studies to propose how wisdom can provide the foundation upon which solutions to social and global problems can be grounded The authors argue that where society has come to rely on leaders with skills relating to knowledge and intelligence instead we should focus on wisdom based acumen for our leaders in government business and the military In this book the authors offer evidence based definitions of wisdom and apply these to world problems they believe could potentially be solved using wise solutions Among the case studies confronted are terrorism and war poverty and economic disparity climate change increasing antibiotic resistance and political corruption Focusing on the cognitive social and emotional processes involved in everyday decision making this book presents a compelling argument for the application of wise problem solving to complex world issues that will appeal in particular to those in leadership teaching and policy roles and open new pathways in the fields of wisdom studies psychology sociology and political theory The Athlete in the Ancient Greek World Reyes Bertolín Cebrián,2020-07-02 In the world of sports the most important component is the athlete After all without athletes there would be no sports In ancient Greece athletes were public figures idolized and envied This fascinating book draws on a broad range of ancient sources to explore the development of athletes in Greece from the archaic period to the Roman Empire Whereas many previous books have focused on the origins of the Greek games themselves or the events or locations where the games took place this volume places a unique emphasis on the athletes themselves and the fostering of their athleticism Moving beyond stereotypes of larger than

life heroes Reyes Bertol n Cebri n examines the experiences of ordinary athletes who practiced sports for educational recreational or professional purposes According to Bertol n Cebri n the majority of athletes in ancient times were young men and mostly single Similar to today most athletes practiced sport as part of their schooling Yet during the fifth century B C a major shift in ancient Greek education took place when the curriculum for training future leaders became more academic in orientation As a result argues Bertol n Cebri n the practice of sport in the Hellenistic period lost its appeal to the intellectual elite even as it remained popular with large sectors of the population Thus a gap emerged between the higher and lower cultures of sport In looking at the implications of this development for athletes whether high performing or recreational this erudite volume traverses such wide ranging fields as history literature medicine and sports psychology to recreate in compelling detail the life and lifestyle of the ancient Greek athlete

Shame and Ageing in a Transforming World

Elisabeth Vanderheiden, Claude-Hélène Mayer, 2024-05-23 The book provides a comprehensive overview of research and concepts related to shame and ageing in the context of social change upheavals and paradigm shifts from transdisciplinary cultural and transcultural perspectives Drawing upon the editors previous works on the topic of shame this volume discusses the contexts of shame and ageing from theoretical conceptual and empirical perspectives The toxic and stressful aspects of shame have been the focus of scientific analysis and discourse on shame and ageing This volume explicitly makes the dimensions of shame a resource for individuals and collective transformation processes the object of research in the context of ageing It looks at emerging lifestyle political socio economic and health contexts It looks at how and why the frequency intensity and handling of feelings of shame change over the course of life the impact of shame on emotional well being and mental health of older people the impact of shame on social relationships and social engagement of older people in different cultures the role of cultural values and norms in the development and processing of feelings of shame especially in older people and how these can be used for self development and the differences in the way older people in different cultures deal with feelings of shame and the way these can be used to develop effective strategies and techniques for older people to cope with shame The editors and contributors thereby take cultural and gender aspects as well as positive psychology and resource orientated concepts such as salutogenesis resilience happiness fortitude locus of control faith or strengths based approaches into account and contextualize them against processes of social upheaval and transformation

Stereotypes and the Construction of the Social World Perry R. Hinton, 2019-10-16 *Stereotypes and the Construction of the Social World* explores the complexity of stereotypes guiding the reader through issues of definition and theoretical explanations from psychology and other disciplines The book examines why people use stereotypes which have often been represented as inaccurate rigid and discriminatory If that is what they are then why would people employ such faulty or biased views of others Whilst this book presents a detailed and comprehensive analysis of the psychological research into the individual use of stereotypes it also presents this research within its ideological and historical context revealing the important sociocultural

factors in what we mean by stereotypes From the politics of representation and inter group power relations alongside individual social cognitive issues the book provides a comprehensive and cross disciplinary account of stereotypes and stereotyping Featuring a wealth of real world examples it will be essential reading for all students and researchers of stereotypes

Alleviating World Suffering Ronald E. Anderson, 2017-03-01 This is the first volume on the subject of the alleviation of world suffering At the same time it is also the first book framing the fields of global socio economic development world health human rights peace studies sustainability and poverty within the challenge of alleviating suffering and improving quality of life Both international studies and global development have become specialized and fragmented whereas this work assembles all of these development fragments together in order to determine whether common ground exists to make headway in reducing global suffering Leading experts in these various fields of development and suffering have been recruited worldwide to give scholarly assessments of the major human problems and how they can be successfully tackled

The Developing Individual in a Changing World Jane Goldberg, John A. Meacham, 2017-07-12 This two volume work levels both criticism and challenge to traditional developmental psychology For too long developmental psychologists have been studying individuals as if they developed in a sociocultural vacuum As psychologists began to study the individual's development more broadly they considered the impact of a number of other factors in the physical and social environment early education sociocultural differences mass communication alternative living arrangements and medical care to name but a few Volume I Historical and Cultural Issues examines the problems of behavioral development from historical political theoretical and cultural points of view A number of content areas already familiar to developmental psychologists are discussed Piaget's theory perceptual development socialization and language acquisition In addition topics relatively unfamiliar to American psychologists are included the contribution of early European developmentalists such as William and Clara Stern Alfred Binet and Eduard Spranger and an introduction to recent Soviet developmental theory Volume II Social and Environmental Issues considers the effects of changes in social and environmental conditions upon individual development The expanding impact of technology such as the communications media the importance of nutrition and the design of playgrounds and other spaces for growing children are among the changes examined as are the impact of social organizations and interactions within small groups focusing upon preschool education interaction within the family and personality development throughout the individual's life

Handbook of Unethical Work Behavior Robert A. Giacalone, 2012-09-10 Unethical behavior in the workplace affects countless people every year Workers in many organizations are subjected to insidious treatment such as harassment discrimination and bullying However most research and discussion of unethical business behavior has focused solely on its financial and legal effects and not on the health and well being of the individuals working for the organization This handbook has been crafted to address this gap It covers the widest possible range of organizational misbehaviors age race and gender discrimination abuse bullying aggression violence

fraud and corruption all with an eye toward the effects on individual and organizational health and well being The Handbook is the first ever single source resource on this important topic
