Transactions National Safety Council, 1928 **Winning at Active Management** William W. Priest, Steven D. Bleiberg, Michael A. Welhoelter, 2016-07-25 Winning at Active Management conducts an in depth examination of crucial issues facing the investment management industry and will be a valuable resource for asset managers institutional consultants managers of pension and endowment funds and advisers to individual investors Bill Priest Steve Bleiberg and Mike Welhoelter all experienced investment professionals consider the challenges of managing portfolios through complex markets as well as managing the cultural and technological complexities of the investment business The book s initial section highlights the importance of culture within an investment firm the characteristics of strong cultures the imperatives of communication and support and suggestions for leading firms through times of both adversity and prosperity It continues with a thorough discussion of active portfolio management for equities The ongoing debate over active versus passive management is reviewed in detail drawing on both financial theory and real world investing results The book also contrasts traditional methods of portfolio management based on accounting metrics and price earnings ratios with Epoch Investment Partners philosophy of investing on free cash flow and appropriate capital allocation Winning at Active Management closes with an inquiry into the crucial and growing role of technology in investing The authors assert that the most effective

portfolio strategies result from neither pure fundamental nor quantitative methods but instead from thoughtful combinations of analyst and portfolio manager experience and skill with the speed and breadth of quantitative analysis The authors illustrate the point with an example of an innovative Epoch equity strategy based on economic logic and judgment but enabled by information technology

Winning at Active Management also offers important insights into selecting active managers the market cycle factors that have held back many managers performance in recent years and the difficulty of identifying those firms that truly possess investment skill Drawing on behavioral economic theory and empirical research the book makes a convincing case that many active investment managers can and do generate returns superior to those of the broad market

Winning Women's Votes Julia Sneeringer, 2003-04-03 In November 1918 German women gained the right to vote and female suffrage would forever change the landscape of German political life Women now constituted the majority of voters and political parties were forced to address them as political actors for the first time Analyzing written and visual propaganda aimed at and frequently produced by women across the political spectrum including the Communists and Social Democrats liberal Catholic and conservative parties and the Nazis Julia Sneeringer shows how various groups struggled to reconcile traditional assumptions about women s interests with the changing face of the family and female

economic activity Through propaganda political parties addressed themes such as motherhood fashion religion and abortion But as Sneeringer demonstrates their efforts to win women s votes by emphasizing women s issues had only limited success The debates about women in propaganda were symptomatic of larger anxieties that gripped Germany during this era of unrest Sneeringer says Though Weimar political culture was ahead of its time in forcing even the enemies of women s rights to concede a public role for women this horizon of possibility narrowed sharply in the face of political instability economic crises and the growing specter of fascism

Partisan Dealignment and the Blue-Collar Electorate in France Sally Marthaler, 2020-01-02 This book explores partisan dealignment in France between 1978 and 2012 with a particular focus on the blue collar electorate and its relationship with the political parties of the established left the Socialist Party or Parti socialiste and the Communist Party or Parti communiste fran ais It highlights the distinctiveness of blue collar partisanship in a context of significant political social and economic change and compares it with patterns of partisanship in the wider electorate The voter party relationship is self evidently a bilateral one which can be modified both on the demand side because voters change and on the supply side because parties

change Four factors are identified as playing a key role in partisan dealignment value change policy convergence political sophistication and political trust There is compelling evidence that while each of these makes a contribution it is changes in the behaviour of the parties that are driving partisan dealignment among blue collar workers in France
