

WELCOME SPEECH FOR AWARD CEREMONY

- A welcome speech is an essential part of any award ceremony.
- Welcome speech generally starts from welcoming all the honorable guests, including the school or college committee, the head of the institution, the distinguished judges, the parents, and the participants.
- The host who gives the welcome speech encourages everybody, including all the participants, for their continuous effort.

Welcome Address At Speech And Prize Ceremony:

Speeches Rufus Daniel Isaacs Marquess of Reading, 1926 Applied Corpus Linguistics ,2016-08-22 This book will be of particular interest to anyone interested in the application of corpus linguistic techniques to language study and instruction This volume includes selected papers from the Fourth North American Symposium held in Indianapolis and hosted by the Indiana Center for Intercultural Communication at Indiana University Purdue University in Indianapolis IUPUI in November 2002 These papers from authors representing eight countries including the U S Belgium China France Germany Ireland the Netherlands and Spain provide a wide range of views of and approaches to corpus linguistic Topics range from theory and analysis to classroom application and include the study of oral discourse as well as the study of written discourse including internet based discourse Consequently this volume is divided into two sections The first section focuses on the use of corpus linguistics in the analysis of spoken and written discourse the second section focuses on the direct pedagogical application of corpus linguistics reflecting the applied foundation of this branch of linguistics **Yoruba Hometowns** Lillian Trager, 2001 The pattern of migrants maintaining strong ties with their home communities is particularly common in sub Saharan Africa where it has important social cultural political and economic implications This book explores the significance of hometown connections for civil society and local development in Nigeria Rich ethnographic description and case studies illustrate the links that the Ijesa Yoruba maintain with their communities of origin links that both help to shape social identity and contribute to local development Trager also examines indigenous concepts of development demonstrating how the Yoruba bring their understandings of development to efforts in their own communities Placing her work in the context of national political and economic change she raises questions about the motivations implications and consequences of local development efforts not only for the communities and their members but also for the larger polity *Speeches,...1917-1922* Sir Reginald Henry Craddock, 1924 Nobel Prizes: Genes, Viruses And Cellular Signaling Erling Norrby, 2022-09-05 The present book discusses the Nobel Prizes in physiology or medicine from 1969 to 1971 The 1969 prize recognized Max Delbrück Alfred Hershey and Salvador Luria Their pioneering studies of viruses infecting bacteria bacteriophages from the mid 1940s through the 1950s laid the foundation for the wide field of molecular biology The nature of the gene was finally understood Insights into the biochemistry of the critical information molecules the nucleic acids opened wide vistas for interpreting their expression and the interaction of their product with other gene products The contact between the endings of a nerve and a target cell the synapse has always stirred the imagination of scientists A number of the insights gained have been highlighted by Nobel Prizes in physiology or medicine In 1970 the prize recognized Bernard Katz Ulf von Euler and Julius Axelrod They had revealed how signaling substances in the nerve terminals were stored in packages released by membrane fusion and inactivated or reused by particular metabolic events The recipient of the 1971 Nobel Prize in physiology or medicine was a single scientist Earl Sutherland He had identified critical molecules in cells that allow signals

elicited at their surface via a number of internal steps to influence the expression of specific genes in the nucleus The new kind of information transmitting molecules were referred to as secondary messengers They represent a critical part of a highly complex network of signaling controlling the operative conditions of the cell by adjustments of the so called intermediary metabolism The widening insights into functions of specialized cells and their complex interactions have led to the development of many kinds of remedies
