America's Philosopher Claire Rydell Arcenas, 2023-10-27 America s Philosopher examines how John Locke has been interpreted reinterpreted and misinterpreted over three centuries of American history The influence of polymath philosopher John Locke 1632 1704 can still be found in a dizzying range of fields as his writings touch on issues of identity republicanism and the nature of knowledge itself Claire Rydell Arcenas s new book tells the story of Americans longstanding yet ever

mutable obsession with this English thinker's ideas a saga whose most recent manifestations have found the so-called Father of Liberalism held up as a right-wing icon. The first book to detail Locke's trans-Atlantic influence from the eighteenth century until today, *America's Philosopher* shows how and why interpretations of his ideas have captivated Americans in ways few other philosophers from any nation ever have. As Arcenas makes clear, each generation has essentially remade Locke in its own image, taking inspiration and transmuting his ideas to suit the needs of the particular historical moment. Drawing from a host of vernacular sources to illuminate Locke's often contradictory impact on American daily and intellectual life from before the Revolutionary War to the present, Arcenas delivers a pathbreaking work in the history of ideas. **An Uncommon**

Film Experience J. P. Telotte, 2014-02-19 Play it again Sam is the motto of cult film enthusiasts who will watch their favorite movie over and over beyond all reason. What is the appeal of cult movies? Why do fans turn up in droves at midnight movies or sit through the same three hanky classics from Hollywood's golden era? These are some of the questions J. P. Telotte and twelve other noted film scholars consider in this groundbreaking study of the cult film. The book identifies two basic types of

cult films older Hollywood movies such as Casablanca that have developed a cult following and midnight movies most notably The Rocky Horror Picture Show. Lotte Bruce Kavin and Timothy Corrigan offer thought provoking discussions about why these two types of movies become cult films the sort of audience they attract and the needs they fulfill for that audience. Subsequent essays employ a variety of cultural feminist ideological and poststructural strategies for exploring these films. In a section on the classical cult film the movie Casablanca receives extensive treatment. An essay by T J Ross considers Beat the Devil as a send up of cult films while another essay by Wade Jennings analyzes the cult star phenomenon as personified in Judy Garland. Midnight movie madness is explored in essays on The Rocky Horror Picture Show movie satires of the 1950s science fiction double features and horror thrillers. Illustrated with scenes from favorite movies and written for both fans and scholars The Cult Film Experience will appeal to a wider audience than the usual suspects. Iron Muse Glenn

Willumson, 2023-11-15 The construction of the transcontinental railroad 1865-1869 marked a milestone in United States history symbolizing both the joining of the country's two coasts and the taming of its frontier wilderness by modern technology. But it was through the power of images and especially the photograph that the railroad attained its iconic status. Iron Muse provides a unique look at the production, distribution and publication of images of the transcontinental railroad from their use as an official record by the railroad corporations to their reproduction in the illustrated press and travel guides and finally to their adaptation to direct sales and albums in the late nineteenth and twentieth centuries. Tracing the complex relationships and occasional conflicts between photographer, publisher and curator as they crafted the photographs different meanings over time Willumson provides a comprehensive portrayal of the creation and evolution of an important slice of American visual culture. The construction of the transcontinental railroad 1865-1869 marked a milestone in United States history symbolizing both the joining of the country's two coasts and the taming of its frontier wilderness by modern technology.
