Phillips and the editors of the Problems and Solutions section, Alberto Holly and Juan Dolado for this useful service to the econometrics profession. I would also like to thank my colleague James M. The reader is encouraged to apply these econometric techniques to their own data sets and to replicate the results of published articles. Some journals authors provide data sets upon request or are readily available on the web. Other empirical examples are given in Lott and Ray 1992 and Berndt 1991.
