

Psychology Case Study Sample

What made him abuse his newly wedded wife? Why did his son become an aggressive child? There is no way I would have expected this from such a considerate and loving person. Everything in their relationship seemed to be thriving. It may be possible that we never know someone until they are pushed to the point in which he or she are forced to act in response to a situation. I witnessed this happening and never could have predicted what transpired.

My Aunt Natalie (not her real name) has always been an independent iron-willed woman. Natalie encountered a man named Ricky (not his real name) who was selfless, candid, and courteous. During their courtship Ricky was a perfect gentleman. They went out to drink at bars, attended social gatherings, and celebrated holidays with each other's families. Within a year Natalie and Ricky fell in love and decided to get married. Shortly after the wedding Natalie became pregnant and gave birth to my cousin Justin (not his real name). Everything seemed blissful until Natalie was able to get back on her feet and involve herself in recreational activities once more.

Ricky did not have a formal education. He crossed the threshold of America only one year before he married Natalie, so it became very challenging for him to find a job. Ricky desired that Natalie stay home and tend to the responsibility of raising her son, but Natalie disagreed with Ricky's views. Natalie nurtured and cared for her child, but on occasion she would attend a local tavern or social gathering. Ricky eventually became fed up with what he felt was blatant neglect for his aspirations of having a similar household to those of his homeland, Peru. In Ricky's family wives cater to the needs of their immediate family without much personal fulfillment.

The Case Study Handbook William Ellet, 2007-04-17 If you're enrolled in an executive education or MBA program you've probably encountered a powerful learning tool: the business case. But if you're like many people, you may find interpreting and writing about cases mystifying, challenging, or downright frustrating. In *The Case Study Handbook*, William Ellet presents a potent new approach for analyzing, discussing, and writing about cases. Early chapters show how to classify cases according to the analytical task they require: solving a problem, making a decision, or forming an evaluation, and quickly establish a base of knowledge about a case. Strategies and templates, in addition to several sample Harvard Business School cases, help you apply the author's framework. Later in the book, Ellet shows how to write persuasive case analytical essays based on the process laid out earlier. Extensive examples of effective and ineffective writing further reinforce your learning. The book also includes a chapter on how to talk about cases more effectively in class. Any current or prospective MBA or executive education student needs to read this book. *CliffsNotes RICA 2nd Edition* Beth Andersen-Perak, Jerry Bobrow, 2010-08-26 Get subject reviews by domain, analyses of question types, a vocabulary list, and two full-length practice tests.

Why is it so challenging to cultivate open government data? Jonathan Crusoe, 2019-04-02

Introduction This compilation licentiate thesis focuses on open government data OGD The thesis is based on three papers OGD is a system that is organized when publishers collect and share data with users who can unrestrictedly reuse the data In my research I have explored why it can be challenging to cultivate OGD Cultivation is human activities that change encourage or guide human organizations towards a higher purpose by changing introducing managing or removing conditions Here the higher purpose is OGD to realize believed benefits Thus OGD cultivation is an attempt to stimulate actors into organizing as OGD Problem and Purpose OGD is believed to lead to several benefits However the worldwide OGD movement has slowed down and researchers have noted a lack of use Publishers and users are experiencing a set of different impediments that are challenging to solve In previous research there is a need for more knowledge about what can impede the OGD organization cause non valuable organizing or even collapse the organization At the same time there is a lack of knowledge about how impediments shape the organization of OGD This gap can make it hard to solve and overcome the impediments experienced by publishers and users The sought after knowledge can bring some understanding of the current situation of OGD In this research I have viewed the organization of OGD as an ecosystem The purpose of this thesis is to draw lessons about why it can be challenging to cultivate OGD ecosystems by understanding OGD impediments from an ecosystem perspective Research Design I set out to explore OGD through qualitative research from 2016 to 2018 My research started with a pilot case study that led to three studies The studies are each reported in a paper and the papers form the base of this thesis The first paper aims to stimulate the conceptually oriented discussion about actors roles in OGD by developing a framework that was tested on a Swedish public agency The second paper has the purpose of expanding the scope surrounding impediments and was based in a review and systematization of previous research about OGD impediments The third paper presents an exploration of impediments experienced by publishers users and cultivators in the Swedish national OGD ecosystem to identify faults From the three papers lessons were drawn in turn and together that are presented in this thesis Findings Cultivators when cultivating OGD ecosystems are facing towering challenges The following three main challenges are identified in this thesis 1 to cultivate a system that can manage stability by itself without constant involvement 2 to cultivate a system that is capable of evolving towards a greater good by itself and 3 to have an up to date precise vocabulary for a self evolving system that enables inter subjective understand for coordinating problem solving Contribution The theoretical contribution of this thesis is that OGD ecosystems can be viewed as a public utility Moreover I recommend that researchers approach the organizing of OGD as the cultivation of evolution rather than the construction of a structure to

consider the stability of the system in growth value and participation and to be cautious with how they label and describe OGD actors For actors that are cultivating OGD I recommend that they guide the OGD actors to help them organize view OGD cultivation as the management of evolution growth towards a purpose and view cultivation as a collaborative effort where they can supply ideas technologies practices and expertise
