**La estrategia de comunicación de las startups en España** Yolanda Román Morán, 2017-01-01 El emprendedor ha experimentado una importante evolución en los últimos años en los que han surgido iniciativas marcadas por la innovación. Se trata de las llamadas startups: empresas emergentes que buscan emprender o montar un nuevo negocio. Muchos son los espacios dedicados a analizar y promover el entorno emprendedor: encuentros, congresos, aceleradoras, incubadoras, inversores, business angels. La difusión de estas iniciativas ha ido en aumento tanto en los medios tradicionales como en las redes sociales, pues han llamado la atención ya sea por el producto y el servicio que ofrecen, ya sea por su particular modo de trabajar o porque satisfacen nuevas necesidades. Por este motivo es clave que estas empresas gestionen de forma profesional su estrategia de comunicación. Este libro analiza cómo confeccionan su plan de comunicación las principales startups españolas, qué perfil tiene su responsable, en qué actividades centran sus esfuerzos a través de qué canales, con qué herramientas, cómo miden la eficacia de sus acciones y cuál es el papel que desempeñan las redes sociales y las agencias de comunicación en esta estrategia. **Entrepreneurship** Howard Frederick, Allan O'Connor, Donald F. **A Startup Field Guide in the Age of Robots and AI** Oliver Mitchell, 2025-06-18 Launching a startup is like climbing a mountain just maybe more treacherous I say this as I have spent years as a backpacker and entrepreneur While hiking through the Alaskan Tundra I feared brown bears and crevasses Yet nothing prepared me for the responsibility of payroll for over 200 families relying on my business plan to feed their children Unlike traditional software the mere smell of hardware sensors and robot gearing sends shivers through most investors with red flags arising from the perceived capital inefficiencies and intense research and development This is coupled with a high talent requirement before launching even a minimum viable product as these inventions demand a cross section of skills mechanical electrical and software engineering To set out on the trail of uncrewed success machine inventors and founders require a detailed field guide to meet customer demand and financing objectives My goal for this book is to help you at a pivotal point in your ideation process and at the same time introduce you to a cadre of potential mentors Through interviews with some of the most respected luminaries in this field I aim to help fortify your resolve to follow your passions and build a billion dollar company The chapters of this book have been organized like a field guide as if you are setting out on a trip in the wild Just like it s essential to satiate yourself before scaling mountains fast tracking your innovation into the hands of early adopters is vital for achieving success on Main Street

Commercialisation and Innovation Strategy in Small Firms Tim Mazzarol, Sophie Reboud, Delwyn Clark, Monique Moore, Peter Malone, Geoffrey N. Soutar, 2022-06-30 This book focuses on the process of commercialisation and innovation management in small firms Although commercialisation and new product development NPD has been covered quite extensively relatively little attention has been given to how small to medium enterprises SMEs engage with these issues The book explores this topic in depth taking a close look at the reasons why decisions are made and mapping this behaviour against established theories and best practice models of NPD and commercialisation The book uses case studies to analyse the relationship between entrepreneurial decision making and commercialisation and investigates how and why NPD and commercialisation decisions are made which offers valuable insights from both a theoretical and applied perspective
