Empires of Panic Robert Peckham, 2015-01-01 *Empires of Panic* is the first book to explore how panics have been historically produced, defined and managed across different colonial, imperial and post imperial settings from early nineteenth century East Asia to twenty first century America. Contributors consider panic in relation to colonial anxieties, rumors, indigenous resistance and crises, particularly in relation to epidemic disease. How did Western government agencies, policymakers, planners and other authorities understand, deal with and neutralize panics? What role did evolving technologies of communication play in the amplification of local panics into global events? Engaging with these questions, the book challenges conventional histories to show how intensifying processes of intelligence gathering did not consolidate empire but rather served to produce critical uncertainties, the uneven terrain of imperial panic. Robert Peckham is associate professor in the Department of History and co-director of the Centre for the Humanities and Medicine at the University of Hong Kong. Charting the relays of rumor and knowledge that stoke colonial fears of disease, disorder and disaster, *Empires of Panic* offers timely and cautionary insight into how viscerally epidemics inflame imperial anxieties and how words and their communication over new technologies accelerate panic, rally government intervention and unsettle and entrench the exercise of global power. Relevant a century ago and even more so today. Nayan Shah, University of Southern California, author of *Contagious: Divides, Epidemics and Race in San Francisco's Chinatown*. *Empires* generated anxiety as much as ambition. This fine study focuses on anxieties generated by disease. It is the first book of its kind to track shifting forms of panic through different geopolitical regimes and imperial formations over the course of two centuries. Working across medical and imperial histories, it is a major contribution to both. Andrew S. Thompson, University of Exeter, author of *Empire and Globalisation: Networks of People, Goods and Capital in the British World c. 1850-1914* with Gary B. Magee. **CMJ New Music Report**, 2000-01-31 *CMJ New Music Report* is the primary source for exclusive charts of non-commercial and college radio airplay and independent and trend forward retail sales. *CMJ's* trade publication compiles playlists for college and non-commercial stations, often a prelude to larger success. **Billboard**, 2002-01-26 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital events brand, content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends. **Billboard**, 2004-01-31 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital events brand, content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends. *CMJ New Music Report*, 2000-02-21 *CMJ New Music Report* is the primary source for exclusive charts of non-commercial and college radio airplay and independent and trend forward retail sales. *CMJ's* trade publication compiles playlists for college and non-commercial stations, often a prelude to larger success. **CMJ New Music Report**, 2002-03-04 *CMJ New Music Report* is the primary source for exclusive charts of non-commercial and college radio airplay and independent and
