feelings of security identity and belonging Many of these affect both the making of laws and the breaking of laws It has been argued however that criminology has been too provincial focusing as it often does on national laws and issues whilst others have said that globalisation is the stuff of international relations global finance and trade not of criminology This book disputes this by asserting that criminology has a firm place in this arena and globalisation offers the discipline a challenge that it should relish Some of the field's top scholars from the UK the US Canada Australia and New Zealand consider these challenges and present cutting edge analysis and debate Topics covered include transnational organised crime international policing and a range of other issues involving global harm such as genocide the workings of international financial institutions the fate of international migrants and the impact of anti immigration sentiments in Europe A particular focus is on borders and arrangements that deal with migration and populations that are excluded and adrift This book highlights criminology's analysis and engagement in new understandings of globalisation in particular its harmful and unethical manifestations and offers a mode of scrutiny and vigilance Globalisation and the Challenge to Criminology will be of particular interest to those studying criminology criminal justice policing security and international relations as well as those who seek to understand globalisation and in particular its harmful outcomes *Police Corruption* Maurice Punch, 2009 Policing and corruption are inseparable This book argues that corruption is not one thing but covers many deviant and criminal practices in policing which also shift over time It rejects the bad apple metaphor and focuses on bad orchards meaning not individual but institutional failure For in policing the organisation work and culture foster can encourage corruption This raises issues as to why do police break the law and crucially who controls the controllers Corruption is defined in a broad multi faceted way It concerns abuse of authority and trust and it takes serious form in conspiracies to break the law and to evade exposure when cops can become criminals Attention is paid to typologies of corruption with grass eaters meat eaters noble cause the forms corruption takes in diverse environments the pathways officers take into corruption and their rationalisations and to collusion in corruption from within and without the organization Comparative analyses are made of corruption scandal and reform principally in the USA UK and the Netherlands The work examines issues of control accountability and the new institutions of oversight It provides a fresh accessible overview of this under researched topic for students academics police and criminal justice officials and members of oversight agencies Transnational Crime and Criminal Justice Marinella Marmo, Nerida Chazal, 2016-04-13 Providing you with a wide ranging introduction to key international issues in crime and its control this book covers all essential theories and clearly explains their relevance to the world today Going beyond just looking at organized crime the book covers a range of topics including Human rights Terrorism Trafficking Cybercrime Environmental crime International Law Plenty of case studies and examples are included throughout including the Bali 9 Rana Plaza and the shooting of Charles De Menezes and tips on further reading make it easy to know where to go to engage with more debates in the field Making sure you're up to date with current issues this book will
