Howard R. Ernst, 2010 In this important new book on the declining health of one of America s leading environmental treasures Howard Ernst reveals a Chesapeake bay that has become functionally dead He argues that the Chesapeake Bay succumbed to a light green environmental movement that has too often adopted a philosophy of compromise over confrontation and that has fueling a political dead zone where political leaders posture but fail to make the hard decisions needed to achieve real improvement in the Bay s health While blunt in his evaluation of past and present failures to restore the Bay Ernst believes that there is still time to turn the restoration effort around and sets out new dark green strategies to do so In the concluding chapter five long time bay activists provide first person accounts of their battles and hopes for the future Hailed by Robert F Kennedy Jr as a must read for anyone concerned about environmental protection this challenging book provides a wake up call for everyone concerned about the future of the Chesapeake Bay and other ecological treasures through out America **FCC Record** United States. with debates about the mediatization of politics media systems information environments media ownership regulation political news horserace journalism objectivity impartiality agenda setting and the relationship between media and democracy more generally Focusing on the most recent US and UK election campaigns they consider how the logic of election coverage could be rethought in ways that better serve the democratic needs of citizens Above all they argue that election reporting should be driven by a public logic where the agenda of voters takes centre stage in the campaign and the policies of respective political parties receive more airtime and independent scrutiny The book is essential reading for scholars and students in political communication and journalism studies political science media and communication studies

Ohio's Kingmaker William T. Horner, 2010-03-04 For a decade straddling the turn of the twentieth century Mark Hanna was one of the most famous men in America Portrayed as the puppet master controlling the weak willed William McKinley Hanna was loved by most Republicans and reviled by Democrats in large part because of the way he was portrayed by the media of the day Newspapers and other media outlets that supported McKinley reported positively about Hanna but those sympathetic to William Jennings Bryan the Democrats presidential nominee in 1896 and 1900 attacked Hanna far more aggressively than they attacked McKinley himself Their portrayal of Hanna was wrong but powerful and this negative image of him survives to this day In this study of Mark Hanna's career in presidential politics William T Horner demonstrates the flaws inherent in the ways the news media cover politics He deconstructs the myths that surround Hanna and demonstrates the dangerous and long lasting effect that inaccurate reporting can have on our understanding of politics When Karl Rove emerged as the political adviser to George W Bush's presidential campaigns the reporters quickly began to compare Rove to Hanna even a century after Hanna's death The two men played vastly different roles for the presidents they served but modern reporters consistently described Rove as the second coming of Mark Hanna another political Svengali Ohio's Kingmaker is the story of a fascinating character in American politics and serves to remind us of the power of misperceptions
